The GoPro is a little inexpensive camera that accomplishes a ton of wonderful things and produces professional quality film because of its Wi-Fi connectivity, exceptional performance, and remarkable mobility. The Hero 11 can record 5.3K video at up to 60 frames per second, 4K at up to 120 frames per second, and 2.7K at up to 240 frames per second if you want to make high resolution slow motion recordings. GoPro's longer lasting Enduro battery, which was previously an extra component, is now included with the Hero 11 as standard equipment. By attempting to make the entire shooting, editing, and uploading workflow as fluid as possible, GoPro has really entered the creator market without forgetting its primary origins for adventure athletes and general trip photographers/videographers.
