The reason the second edition of the Naplex Review is so useful is because it is an updated, expanded version with all of the material from the original book. While the book does still contain valuable information that can be valuable to those who are promoting affiliate programs or selling their own products, the additions make this text even easier to use and more accessible to people who would rather not read an entire book. It is also a book that anyone can read, regardless of their level of experience with internet marketing software. The book is formatted in easy to read sections that are presented in lists and chapters. The detailed layout makes it simple to identify a certain term or topic, and the detailed format also means it is very unlikely that someone will miss a chapter.
