Sarah Gravett, Elizabeth Henning

Gauteng Trial Paper 2014:

Mathematics Teaching and Professional Learning in sub-Sahara Africa Kakoma Luneta, 2021-12-09 The book represents a crop of wide ranging research conducted by renown scholars in sub Sahara Africa revolving around mathematics teaching and professional development programs for mathematics teachers The research based proposals and actual how to conduct professional development initiatives that enhance effective mathematics instruction are rooted in teacher input and informed by learners errors and misconceptions The book provides a comprehensive snapshot on mathematics teaching learning and effective professional development programmes for mathematics teachers in sub Sahara Africa It is the only research output that advances and disseminates issues of mathematics education and research in the region with input from South Africa Kenya Rwanda Uganda Malawi Namibia Lesotho Ethiopia and Zimbabwe Glimpses into Primary School Teacher Education in South Africa Sarah Gravett, Elizabeth Henning, 2020-11-05 This book explores the current landscape of Initial Teacher Education ITE in primary schools in South Africa Considering recent policy directives and initiatives it highlights the dilemmas of ITE for the primary school and gives a thorough account of innovations and initiatives to improve ITE The book presents what works best for quality preparation of teachers in the Global South where many children rely on their teachers and school life to break the cycle of poverty Chapters draw on evidence from workplace learning pre service study and primary school teacher education policy to highlight examples of promising change in teacher education in South Africa addressing the clichés of theory versus practice head on This book successfully brings out the challenging aspects of teacher education for childhood learning which has otherwise been regarded as the softer option for a career in education This book will be of great interest for academics researchers and post graduate students in the fields of teacher education African education educational policy international education and comparative education *After Dictatorship* Peter Hoeres, Hubertus Knabe, 2023-02-20 Numerous studies concerning transitional justice exist However comparatively speaking the effects actually achieved by measures for coming to terms with dictatorships have seldom been investigated There is an even greater lack of transnational analyses This volume contributes to closing this gap in research To this end it analyses processes of coming to terms with the past in seven countries with different experiences of violence and dictatorship Experts have drawn up detailed studies on transitional justice in Albania Argentina Ethiopia Chile Rwanda South Africa and Uruguay Their analyses constitute the empirical material for a comparative study of the impact of measures introduced within the context of transitional justice It becomes clear that there is no sure formula for dealing with dictatorships Successes and deficits alike can be observed in relation to the individual instruments of transitional justice from criminal prosecution to victim compensation Nevertheless the South American states perform much better than those on the African continent This depends less on the instruments used than on political and social factors Consequently strategies of transitional justice should focus more closely on these contextual factors *South Africa's Insurgent Citizens* Doctor Julian

Brown,2015-07-15 Twenty years on from South Africa's first democratic election the post apartheid political order is more fractured and more fractious than ever before Police violence seems the order of the day whether in response to a protest in Ficksburg or a public meeting outside a mine in Marikana For many this has signalled the end of the South African dream Politics they declare is the preserve of the corrupt the self interested the incompetent and the violent They are wrong Julian Brown argues that a new kind of politics can be seen on the streets and in the courtrooms of the country This politics is made by a new kind of citizen one that is neither respectful nor passive but instead insurgent The collapse of the dream of a consensus politics is not a cause for despair South Africa's political order is fractured and in its cracks new forms of activity new leaders and new movements are emerging

South African Schooling: The Enigma of Inequality Nic

Spaull,Jonathan D. Jansen,2019-11-05 This volume brings together many of South Africa's leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world

South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90 10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI

Identification and Citizenship in Africa Séverine Awenengo Dalberto, Richard Banégas, 2021-05-09 In the context of a global biometric turn this book investigates processes of legal identification in Africa from below asking what this means for the relationship between citizens and the state Almost half of the population of the African continent is thought to lack a legal identity and many states see biometric technology as a reliable and efficient solution to the problem However this book shows that biometrics far from securing identities and avoiding fraud or political distrust can even participate in reinforcing exclusion and polarizing debates on citizenship and national belonging It highlights the social and political embedding of legal identities and the resilience of the documentary state Drawing on empirical research conducted across 14 countries the book documents the processes practices and meanings of legal identification in Africa from the 1950s right up to the biometric boom Beyond the classic opposition between surveillance and recognition it demonstrates how analysing the social uses of IDs and tools of identification can give a fresh account of the state at work the practices of citizenship and the role of bureaucracy in the writing of the self in African societies This book will be of an important reference for students and scholars of African studies politics human security and anthropology and the sociology of the state

Afterimages of Apartheid Kylie Thomas, 2025-10-29 Afterimages of Apartheid shows how photographs of the past can be mobilised as a critical tool for understanding the ongoing effects of apartheid in contemporary South Africa Through close readings of significant images made during and after apartheid the book shows how photography works as a means of documentation commemoration and

resistance Written by one of South Africa's leading scholars of visual history the book considers the ways in which photographs can be used to contest impunity for state violence Afterimages includes chapters on the Sharpeville and Marikana massacres on the re opening of cases of human rights violations that remain unresolved in the aftermath of the South African Truth and Reconciliation Commission and on contemporary protests against the post apartheid state The book makes a powerful case for the role of photographs in drawing the viewer into the past time they represent issuing a call to the living to remember respond and react This vivid account of the photography of apartheid will be of interest to students and researchers across the fields of South African history visual studies memory studies art history photography studies and transitional justice

Youth Employment Programmes in Africa Ramos E. Mabugu, Lucas Ronconi, 2025-10-03 This book investigates youth employment programmes across nine African countries providing important insights into the world's youngest continent by population in which 60% of people are aged under 25 By 2050 the labour force in sub-Saharan Africa is expected to be almost double the size of the labour force in high income countries representing a massive shift in the world's working population and providing a significant challenge for job creation In this book contributors bring together insights from more than 500 in depth interviews and 1 500 focus group participants to consider whether youth employment programmes are effectively reaching vulnerable groups This book tackles the problem of political clientelism in the allocation of benefits and considers the level of coordination that is taking place across programmes and political institutions Combining rich empirical findings with data about labour market outcomes and institutions this book will be an important read for researchers wishing to understand the political economy of youth employment policy in Africa

Police Integrity in South Africa Sanja Kutnjak Ivkovich, Adri Sauerma, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement In 1994 as the country's apartheid system was replaced with a democratic order the new government faced the significant challenge of transforming the South African police force into a democratic police agency the South African Police Service SAPS that would provide unbiased policing to all the country's people More than two decades since the initiation of the reforms it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity This book offers a unique perspective by providing in depth analyses of police integrity in South Africa It is a case study that systematically and empirically explores the contours of police integrity in a young democracy Using the organizational theory of police integrity the book analyzes the complex set of historical legal political social and economic circumstances shaping police integrity A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules their expectations of discipline within the SAPS and their willingness to report misconduct The book also examines the influence of the respondents' race gender and supervisory status on police integrity Written in a clear and direct style this book will appeal to students and scholars of criminology policing sociology political science as well as to police

administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations
