Gb84 A Novel:

GB84 David Peace, 2014-11-04 Never before published in the U S GB84 will be launched in 2014 alongside two other novels by David Peace *The Damned* Utd and *Red or Dead* In taut and gripping prose that often feels like the relentless text of a surveillance report GB84 tells the story of the British coal miner s strike of 1984 including the actual bombings riots and protests that brought the country to the brink of civil war Called by its author fiction based on fact the book depicts a real life 1984 more violently dystopian than even Orwell imagined Slowly starving strikers find themselves pitted against a prime minister Margaret Thatcher determined to crush them a police force willing to use infiltration and violence to achieve her will and equally hungry scabs who need a job Mixing real events and characters with the voices of the increasingly desperate strikers the book becomes a stirring saga of courage against overwhelmingly sinister forces and paints a searing and haunting portrait of events that changed the course of British history

Reaganism, Thatcherism and the Social Novel C. Hutchinson, 2008-10-31 The social novel is the traditional haunt of the liberal conscience What does the triumph of the New Right mean for this type of fiction in Britain and the US Should the liberal left seek consensus or assertion This book examines these issues and assesses the state of both nations as well as that of the contemporary novel

The Working Class and Twenty-First-Century British Fiction Phil O'Brien, 2019-12-05 *The Working Class and Twenty First Century British Fiction* looks at how the twenty first century British novel has explored contemporary working class life Studying the works of David Peace Gordon Burn Anthony Cartwright Ross Raisin Jenni Fagan and Sunjeev

Sahota the book shows how they have mapped the shift from deindustrialisation through to stigmatization of individuals and communities who have experienced profound levels of destabilization and unemployment O'Brien argues that these novels offer ways of understanding fundamental aspects of contemporary capitalism for the working class in modern Britain including class struggle inequality trauma social abjection racism and stigmatization exclusively looking at British working class literature of the twenty first century

Digging the Seam Ian W. Macdonald, Simon Popple, 2012-11-15 The 1984 5 Miners Strike was one of the most important political events in British history It was a bitter dispute that polarised public opinion divided nation and families alike and the results in terms of the destruction of centuries of industrial and cultural tradition are still keenly felt The social and political consequences of this dispute which have resonated for the past quarter century have been subject to detailed analysis and reflection The consequences for the arts and popular culture are less clearly mapped This book attempts to begin to redress this imbalance and signal the importance of popular cultural activity both during and after the strike The essays that appear in this book represent diverse and multidisciplinary responses to the questions raised by the strike and its relationships to a broad range of cultural forms which include literature film photography music theatre television drama and documentary painting public art and heritage interventions These responses are organised around four themes that map the interrelatedness between

cultural representation cultural intervention and historical memory The first deals with the idea of mining culture and pre strike representations in popular sentiment film and literature The second examines the role cultural forms played directly in the context of the strike as a means of political commentary activism and fund raising The third looks at subsequent cultural renderings or reconstructions of the strike and the final section looks at the current process of memorialisation and commemoration The book draws together a range of voices from academia heritage cultural and mining backgrounds and offers both a historical perspective on the range of cultural activities in the course of the dispute and subsequent readings and re readings It aims both to provide a record of cultural intervention and stimulate new dialogues and perspectives
