Give Five Ways The Similarities:

Steps on the Path to Enlightenment Lhundub Sopa, 2017-12-12 The final installment of the Steps on the Path to Enlightenment series examines the nature of reality with a master class in Buddhist Middle Way philosophy and meditation. The late Geshe Sopa was a refugee monk from Tibet sent to the United States by the Dalai Lama in 1963. He became a professor at the University of Wisconsin training a generation of Western Buddhist scholars and was a towering figure in the transmission of the Buddhism to the West. In this fifth and final volume of his commentary on Lama Tsongkhapa's masterwork on the graduated steps of the Buddhist path, Geshe Sopa explains the practice of superior insight or wisdom, the pinnacle of the bodhisattva's perfections. All the Buddhist practices are for the purpose of developing wisdom, for it is wisdom that liberates from the cycle of suffering. All other positive actions, from morality to deep states of meditation, have no power to liberate unless they are accompanied by insight into the nature of reality. With unparalleled precision, Geshe Sopa unpacks this central principle with scholarly virtuosity, guiding the reader through the progressive stages of realization. The

Comparison Cure Lucy Sheridan, 2019-12-26 We know it's silly and harmful to compare ourselves to others, but that doesn't mean we know how to stop doing it. Luckily, with her brilliant book *The Comparison Cure*, Lucy Sheridan gives us a road map to reclaiming ourselves. Sarah Knight, New York Times bestselling author of *The Life Changing Magic of Not Giving a F*ck*, *The Queen of Self Worth*, and *Adwoah Aboah* _____ Lucy Sheridan, the world's first and only comparison coach, has helped thousands of people go from compare and despair to comparison-free, and now she has condensed all of that liberating knowledge into *The Comparison Cure*. With a three-step, tried and tested methodology to help you improve your self-worth and self-confidence: 1. recognise the symptoms, 2. start practising the remedies, and 3. keep your good new habits going, you will soon be able to let go of procrastination and start living a comparison-free life. Packed full of tips, examples, and exercises to help you take back control of who you are and what you want, this positive and empowering book is the timely and necessary antidote we all need to the toxic comparison culture we're living in. *Creative Teaching: History in the Primary Classroom*

Rosie Turner-Bisset, 2012-12-06 Designed specifically for teachers with little subject knowledge or experience in history, this book provides trainees with the confidence they need to teach primary history. Based on Curriculum 2000, the book provides valuable step-by-step guidance on how to create, plan, develop, organize, and assess high-quality teaching activities in primary history. This book is full of teaching approaches, practical ideas, teaching activities, real-life case studies, and vignettes of good teaching practice. It covers both conventional and modern approaches, such as drama, role play, story telling, music, and dance, and explains how each approach can be adapted to suit all primary ages and abilities. Children with a range of learning needs and styles respond with enthusiasm to a wide variety of teaching approaches, and this book provides trainee teachers with that repertoire and variety. **Statistics And Experimental Design For Psychologists: A Model Comparison Approach**

Rory Allen, 2017-08-28 This is the first textbook for psychologists which combines the model comparison method in statistics

with a hands on guide to computer based analysis and clear explanations of the links between models hypotheses and experimental designs Statistics is often seen as a set of cookbook recipes which must be learned by heart Model comparison by contrast provides a mental roadmap that not only gives a deeper level of understanding but can be used as a general procedure to tackle those problems which can be solved using orthodox statistical methods Statistics and Experimental Design for Psychologists focusses on the role of Occam s principle and explains significance testing as a means by which the null and experimental hypotheses are compared using the twin criteria of parsimony and accuracy This approach is backed up with a strong visual element including for the first time a clear illustration of what the F ratio actually does and why it is so ubiquitous in statistical testing The book covers the main statistical methods up to multifactorial and repeated measures ANOVA and the basic experimental designs associated with them The associated online supplementary material extends this coverage to multiple regression exploratory factor analysis power calculations and other more advanced topics and provides screencasts demonstrating the use of programs on a standard statistical package SPSS Of particular value to third year undergraduate as well as graduate students this book will also have a broad appeal to anyone wanting a deeper understanding of the scientific method

Learning Targets Connie M. Moss,Susan M. Brookhart,2012-07-02 In Learning Targets Connie M Moss and Susan M Brookhart contend that improving student learning and achievement happens in the immediacy of an individual lesson what they call today s lesson or it doesn t happen at all The key to making today s lesson meaningful Learning targets Written from students point of view a learning target describes a lesson sized chunk of information and skills that students will come to know deeply Each lesson s learning target connects to the next lesson s target enabling students to master a coherent series of challenges that ultimately lead to important curricular standards Drawing from the authors extensive research and professional learning partnerships with classrooms schools and school districts this practical book Situates learning targets in a theory of action that students teachers principals and central office administrators can use to unify their efforts to raise student achievement and create a culture of evidence based results oriented practice Provides strategies for designing learning targets that promote higher order thinking and foster student goal setting self assessment and self regulation Explains how to design a strong performance of understanding an activity that produces evidence of students progress toward the learning target Shows how to use learning targets to guide summative assessment and grading Learning Targets also includes reproducible planning forms a classroom walk through guide a lesson planning process guide and guides to teacher and student self assessment What students are actually doing during today s lesson is both the source of and the yardstick for school improvement efforts By applying the insights in this book to your own work you can improve your teaching expertise and dramatically empower all students as stakeholders in their own learning

The Comparison-Free Life Heather Creekmore, 2024-11-19. *Comparison-Free Life* gives an updated title and look to Heather's fan favorite book *The Burden of Better*. Tired of chasing better? In an era of carefully curated social media images, nonstop selfies, and TV shows devoted to perfection, comparison can consume you. Chasing something better quickly becomes a burden weighing down your soul and preventing you from experiencing the freedom, contentment, and rest that God graciously offers. While other books on comparison call you to embrace uniqueness, *The Comparison-Free Life* reveals how only a deeper understanding of God's grace can guide you off the self-improvement treadmill. Heather's humor and empathetic approach offer a gospel-centered guide to kicking your comparison habit.
