Arena John Pearson,2011-12-01 First published in 1973 Arena discusses the Year AD 80 when the Colosseum opened with quite the longest and most nauseating organized mass orgy in history It was a mammoth celebration on the grandest scale a fitting inauguration for an arena built to epitomize all the majesty and power of the Roman Empire a building which also held the seeds of that Empire s decay and destruction As well as his vivid account of the erection of the Colosseum Mr Pearson discusses the origins of death spectacles and their evolution into highly organized games intended to enhance imperial prestige and provide the populace with an effective substitute for politics and war Butchered to make a Roman holiday the victims of this lust for slaughter were slaves and criminals the human surplus of their day coached for an almost certain death One chapter highlights the perverted death wish of many early would be martyrs and decisively establishes that there is no evidence for the death of a single Christian martyr in the Colosseum The book concludes with a brief survey of the building s subsequent history looted and despoiled yet still the embodiment of Rome s spirit and greatness it became a sublime romantic ruin now exposed by slum clearance as a gigantic traffic island Mr Pearson is acutely aware of the violence that was endemic in Roman society and in his shrewd analysis he draws disturbing parallels with the twentieth century situation
