Global Antisemitism: A Crisis of Modernity Charles Asher Small,2013-11-28 This volume contains a selection of essays based on papers presented at a conference organized at Yale University and hosted by the Yale Initiative for the Interdisciplinary Study of Antisemitism YIISA and the International Association for the Study of Antisemitism IASA entitled Global Antisemitism A Crisis of Modernity The essays are written by scholars from a wide array of disciplines intellectual

backgrounds and perspectives and address the conference's two inter-related areas of focus: global antisemitism and the crisis of modernity currently affecting the core elements of Western society and civilization. Rather than treating antisemitism merely as an historical phenomenon, the authors place it squarely in the contemporary context. As a result, this volume also provides important insights into the ideologies, processes, and developments that give rise to prejudice in the contemporary global context. This thought-provoking collection will be of interest to students and scholars of antisemitism and discrimination as well as to scholars and readers from other fields.

Global Trade and Cultural Authentication Joanne B. Eicher, 2022-08 *Global Trade and Cultural Authentication* edited by Joanne Eicher showcases the complexity and enduring aesthetic and ingenuity of Kalabari artisans. The Kalabari people, most of whom make their homes in the eastern Niger Delta region of western Africa, are renowned for the artistry in working with globally imported textiles and dress for centuries. The 22 essays in this edited volume feature the work of leading Nigerian and American scholars and offer an in-depth, nuanced understanding of Kalabari textiles, aesthetics, and engagement with past and present global trade networks. Using dress and textiles as a lens, *Global Trade and Cultural Authentication* explores the Kalabari people's centuries-long role in the global trade arena. Their economic interconnectedness demonstrates that Africa was never a dark continent but rather critically involved in a global trade built around Kalabari resourcefulness and imagination.

**Patent Law in Global Perspective** Ruth L. Okediji, Margo A. Bagley, 2014 *Patent Law in Global Perspective* addresses critical and timely questions in patent law from a truly global perspective with contributions from leading patent law scholars from various countries and various disciplines. The rich scholarship featured reflects on a wide range of perspectives, offering insights and new approaches to evaluating key institutional, economic, doctrinal, and practical issues that are at the forefront of efforts to reform the global patent system and to reconfigure geopolitical interests in on-going multilateral, trilateral, and bilateral initiatives.

**Social Justice Leadership for a Global World** Cynthia Gerstl-Pepin, Judith A. Aiken, 2012-10-01 The global economic meltdown has highlighted the interconnectedness of nations. This book seeks to provide an overview of topics, issues, and best practices related to defining social justice leadership given our increasingly global world. Refugees and immigrants from around the globe now inhabit schools and institutions of higher education across the nation, and US students, teachers, and leaders are traversing international borders both physically and virtually through international collaboration technology and exchange programs. Although there have been increased efforts and scholarship in support of diversity and multicultural awareness, these efforts have largely focused on the US. We acknowledge that many leadership theories are domestic in that they typically incorporate US perspectives or a single culture description of effective leadership. This book provides a deeper understanding of diverse and multicultural perspectives as they relate to a world that is becoming increasingly interconnected economically, socially, and culturally. Particular attention is paid to providing specific strategies for social justice leaders working in PK-12 and/or higher education and leadership preparation programs to promote effective

leadership that reflects multicultural understanding of the diversity both within and outside the US Within the context of leadership practice internationalization offers new insights and ideas about leadership aims processes and competencies as a means for addressing equity concerns throughout PK 20 education

**American Universities in a Global Market** Charles T. Clotfelter, 2010-04-28 In higher education the United States is the preeminent global leader dominating the list of the world's top research universities But there are signs that America's position of global leadership will face challenges in the future as it has in other realms of international competition American Universities in a Global Market addresses the variety of issues crucial to understanding this preeminence and this challenge The book examines the various factors that contributed to America's success in higher education including openness to people and ideas generous governmental support and a tradition of decentralized friendly competition It also explores the advantages of holding a dominant position in this marketplace and examines the current state of American higher education in a comparative context placing particular emphasis on how market forces affect universities By discussing the differences in quality among students and institutions around the world this volume sheds light on the singular aspects of American higher education

**Histories of Global Inequality** Christian Olaf Christiansen, Steven L. B. Jensen, 2019-07-09 This book argues that inequality is not just about numbers but is also about lived historical experience It supplements economic research and offers a comprehensive stocktaking of existing thinking on global inequality and its historical development The book is interdisciplinary drawing upon regional and national perspectives from around the world while seeking to capture the multidimensionality and multi-causality of global inequalities Grappling with what economics offers as well as its blind spots the study focuses on some of today's most relevant and pressing themes discrimination and human rights defences and critiques of inequality in history decolonization international organizations gender theory the history of quantification of inequality and the history of economic thought The historical case studies featured respond to the need for wider historical research and to calls to examine global inequality in a more holistic manner The Introduction Chapter 1 Histories of Global Inequality Introduction is open access under a CC BY 4.0 license via [link.springer.com](https://link.springer.com)

**Brief Review** Gordon Korman, 2004

**Food Justice in US and Global Contexts** Ian Werkheiser, Zachary Piso, 2017-07-01 This book offers fresh perspectives on issues of food justice The chapters emerged from a series of annual workshops on food justice held at Michigan State University between 2013 and 2015 which brought together a wide variety of interested people to learn from and work with each other Food justice can be studied from such diverse perspectives as philosophy anthropology economics gender and sexuality studies geography history literary criticism philosophy and sociology as well as the human dimensions of agricultural and environmental sciences As such interdisciplinary workshops are a much needed vehicle to improve our understanding of the subject which is at the center of a vibrant and growing discourse not only among academics from a wide range of disciplines but also among policy makers and community activists The book includes their perspectives offering a wide range of approaches to

and conceptions of food justice in a variety of contexts This invaluable work requires readers to cross boundaries and be open to new ideas based on different assumptions

**States, Markets and Wars in Global History** Giulio Sapelli, 2023-09-30 This wide ranging book focuses on the economic and political changes that have taken place between the advent of globalization and the COVID 19 pandemic and assesses how this may bring about a profound reconfiguration of the global political system Sapelli considers a range of developments in different spheres from international to national politics military aggressions and worldwide political trends such as the rise of populism to illuminate the moment of neoliberal crisis in which we now live He argues that Europe and its institutions in particular no longer demonstrate a model of diplomacy and statesmanship with the rise of technocratic structures and elitism reflecting how an ideal of global convergence towards liberalism and democracy no longer holds true The book then considers how a new international order based on the reason of state can be brought about by global cooperation between the US Russia and China along with a return to properly regulated finance and a renewed focus on community in the wake of the coronavirus pandemic The book will be of interest to those working in international economics and international relations as well as academics of economic history and political economy

*The Writing Revolution* Judith C. Hochman, Natalie Wexler, 2017-07-27 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution TWR provides a clear method of instruction that you can use no matter what subject or grade level you teach The model also known as The Hochman Method has demonstrated over and over that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback Insurmountable as the challenges faced by many students may seem The Writing Revolution can make a dramatic difference And the method does more than improve writing skills It also helps Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing There s no separate writing block and no separate writing curriculum Instead teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction But perhaps what s most revolutionary about the TWR method is that it takes the mystery out of learning to write well It breaks the writing process down into manageable chunks and then has students practice the chunks they need repeatedly while also learning content

**Global Crisis** Geoffrey Parker, 2020-08-11 The acclaimed historian demonstrates a link between climate change and social unrest across the globe during the mid 17th century Revolutions droughts famines invasions wars regicides government collapses the calamities of the mid seventeenth century were unprecedented in both frequency and severity The effects of what historians call the General Crisis extended from England to Japan and from the Russian Empire to sub Saharan Africa and the Americas In this meticulously researched volume historian Geoffrey Parker presents the firsthand testimony of men and women who experienced the many political economic and social crises that occurred between 1618 to the late 1680s He also incorporates

the scientific evidence of climate change during this period into the narrative offering a strikingly new understanding of the General Crisis Changes in weather patterns especially longer winters and cooler and wetter summers disrupted growing seasons and destroyed harvests This in turn brought hunger malnutrition and disease and as material conditions worsened wars rebellions and revolutions rocked the world

**Global Indigenous Health** Robert Henry, Amanda LaVallee, Nancy Van Styvendale, Robert Alexander Innes, 2018-10-30 Indigenous peoples globally have a keen understanding of their health and wellness through traditional knowledge systems In the past traditional understandings of health often intersected with individual community and environmental relationships of well being creating an equilibrium of living well However colonization and the imposition of colonial policies regarding health justice and the environment have dramatically impacted Indigenous peoples health Building on Indigenous knowledge systems of health and critical decolonial theories the volume s contributors who are academic and community researchers from Canada the United States Sweden and New Zealand weave a narrative to explore issues of Indigenous health within four broad themes ethics and history environmental and ecological health impacts of colonial violence on kinship and Indigenous knowledge and health activism Chapters also explore how Indigenous peoples are responding to both the health crises in their communities and the ways for non Indigenous people to engage in building positive health outcomes with Indigenous communities Global Indigenous Health is unique and timely as it deals with the historical and ongoing traumas associated with colonization and colonialism understanding Indigenous concepts of health and healing and ways of moving forward for health equity Contributors Sharon Leslie Acoose Seth Adema Peter Butt John E Charlton Colleen Anne Dell Debra Dell Paul DePasquale Judy A Dow C Randy Duncan Carina Fiedeldey Van Dijk Barbara Fornssler Chelsea Gabel Eleanor Louise Hadden Laura Hall Robert Henry Carol Hopkins Robert Alexander Innes Simon Lambert Amanda LaVallee Josh Levy Rachel Loewen Walker David B MacDonald Peter Menzies Christopher Mushquash David Mykota Nancy Poole Alicia Powell Ioana Radu Margo Rowan Mark F Ruml Caroline L Tait Lisa Tatonetti Margaretha Uttjek Nancy Van Styvendale

Making Global Society Barry Buzan, 2023-08-10 Barry Buzan proposes a new approach to making International Relations a truly global discipline that transcends both Eurocentrism and comparative civilisations He narrates the story of humankind as a whole across three eras using its material conditions and social structures to show how global society has evolved Deploying the English School s idea of primary institutions and setting their story across three domains interpolity transnational and interhuman this book conveys a living historical sense of the human story whilst avoiding the overabstraction of many social science grand theories Buzan sharpens the familiar story of three main eras in human history with the novel idea that these eras are separated by turbulent periods of transition This device enables a radical retelling of how modernity emerged from the late 18th century He shows how the concept of global society can build bridges connecting International Relations Global Historical Sociology and Global World History

Civil Society, Religion and Global Governance Helen James, 2007-04-11 This is one of the first books to explore the nexus between

civil society religion and global governance their impact on human security and well being and significance for current debates in international politics The contributors examine salient aspects of the secular state whose monopoly on and control of institutional violence has reified its use of power to such an extent that the modernistic separation of church and state is being called into question as institutional limits are sought to the abuse of that power The volume is clearly divided into six key sections human security and human rights the politics of civil religion the ethics of civil development civil society and global governance cross cultural perspectives on institutional development for civil society international civil society Within these sections the illuminating case studies span a wide geographical extent from Central and Eastern Europe to Egypt to Latin America Iran Bangladesh Australia the Pacific and East and Southeast Asia Civil Society Religion and Global Governance will be of strong interest to students policy makers and researchers in the fields of human rights religion political science and sociology
