The Oldest Foods on Earth John Newton, 2016-02-01 This is a book about Australian food not the foods that European Australians cooked from ingredients they brought with them but the flora and fauna that nourished the Aboriginal peoples for over 50 000 years It is because European Australians have hardly touched these foods for over 200 years that I am writing it We celebrate cultural and culinary diversity yet shun foods that grew here before white settlers arrived We love superfoods from exotic locations yet reject those that grow here We say we revere sustainable local produce yet ignore Australian native plants and animals that are better for the land than those European ones In this the most important of his books John Newton boils down these paradoxes by arguing that if you are what you eat we need to eat different foods foods that will help to reconcile us with the land and its first inhabitants But the tide is turning European Australians are beginning to accept and relish the flavours of Australia everything from kangaroo to quandongs from fresh muntries to the latest addition magpie goose With recipes from chefs such as Peter Gilmore Maggie Beer and Ren Redzepi s sous chef Beau Clugston *The Oldest Foods on Earth* will convince you that this is one food revolution that really matters
