Responsible Reproductive Choice in the 21st Century Malcolm de Roubaix, 2023-01-05. This book systematically traces the development, significance, and implications of female reproductive choice. Paramount is the right to safe termination of pregnancy (TOP). In the USA, these rights are under threat after the reversal of Roe v. Wade 1973, confirming the eternally contested nature of the pro-life pro-choice standoff. The approach is unique and from all angles: historical, social, emotional, and legal. South African experience is evaluated against a global backdrop. Arguing from an ethics of responsibility, the book presents a justified, balanced, rational, and moderate position on the moral acceptability of TOP. It proposes that the morality of TOP be evaluated by balancing inherent foetal moral significance against contingent potentiality, context, and circumstance that may determine foetal development. TOP is a choice a woman faces with each pregnancy. It always has moral implications exclusive to the life of the woman. So too do continued pregnancy and parenthood, but these are of greater magnitude and duration.

Breaking Ranks Colin Diver, 2022-04-12. Some colleges will do anything to improve their national ranking. That can be bad for their students and for higher education. Since U.S. News World Report first published a college ranking in 1983, the rankings industry has become a self-appointed judge, declaring winners and losers among America's colleges and universities. In this revealing account, Colin Diver shows how popular rankings have induced college applicants to focus solely on pedigree and prestige while tempting educators to sacrifice academic integrity for short-term competitive advantage. By forcing colleges

into standardized best college hierarchies he argues rankings have threatened the institutional diversity intellectual rigor and social mobility that is the genius of American higher education As a former university administrator who refused to play the game Diver leads his readers on an engaging journey through the mysteries of college rankings admissions financial aid spending policies and academic practices He explains how most dominant college rankings perpetuate views of higher education as a purely consumer good susceptible to unidimensional measures of brand value and prestige Many rankings he asserts also undermine the moral authority of higher education by encouraging various forms of distorted behavior misrepresentation and outright cheating by ranked institutions The recent Varsity Blues admissions scandal for example happened in part because affluent parents wanted to get their children into elite schools by any means necessary Explaining what is most useful and important in evaluating colleges Diver offers both college applicants and educators a guide to pursuing their highest academic goals freed from the siren song of the best college illusion Ultimately he reveals how to break ranks with a rankings industry that misleads its consumers undermines academic values and perpetuates social inequality

School Choice: Separating Fact from Fiction Patrick J. Wolf, 2020-05-21 School choice is a hot topic in the United States Private school vouchers public charter schools open enrollment and homeschooling all regularly appear on the policy agenda as ways to improve the educational experience and outcomes for students parents and the broader society Pundits often make claims about the various ways in which parents select schools and thus customize their child's education What claims about school choice are grounded in actual evidence This book presents systematic reviews of the social science research regarding critical aspects of parental school choice How do parents choose schools and what do they seek What effects do their choices have on the racial integration of schools and the performance of the schools that serve non choosing students What features of public charter schools are related to higher student test scores What effects does school choice have on important non cognitive outcomes including parent satisfaction student character traits and how far students go in school What do we know about homeschooling as a school choice This book originally published as a special issue of the Journal of School Choice provides evidence based answers to those vital questions
