The Palgrave Handbook of Global Sustainability Robert Brinkmann, 2023-04-04 The field of sustainability continues to evolve as a discipline The world is facing multiple sustainability challenges such as climate change water depletion ecosystem loss and environmental racism The Handbook of Sustainability will provide a comprehensive reference for the field that examines in depth the major themes within what are known as the three E s of sustainability environment equity and economics These three themes will serve as the main organizing body of the work In addition the work will include sections on history and sustainability major figures in the development of sustainability as a discipline and important organizations that contributed or that continue to contribute to sustainability as a field The work is explicitly global in scope as it considers the very different issues associated with sustainability in the global north and south School Development Through Teacher Research Eriksson, Inger, Osaki, Kalafunja Mlangi, 2018-08-17 School Development through Teacher Research Lesson and Learning Studies in Sweden and Tanzania presents the results from a three year long joint research project conducted by educational researchers from Tanzania and Sweden Even though the country contexts differ in social economic as well as educational conditions including teacher education and classroom standards many recurrent education challenges are shared These include the tendency to make educational reforms with little or no input from professionals The new educational reforms in both countries put a much higher responsibility on teachers teachers must be able to organise teaching that enables all students to develop required abilities competencies Thus teachers need tools to develop knowledge that can contribute to their professional knowledge base With an overall interest in issues of teaching and action research this joint project aimed to use Lesson and Learning Study as models for developing and improving the quality of teaching and learning in schools The research project was realised through four case studies in each country with a focus on students development of specific capabilities and values Science Vocational Skills Home and Consumer Studies English as second language and Mathematics in grades 6 7 Complementing the cases School Development through Teacher Research Lesson and Learning Studies in Sweden and Tanzania offers an introductory background to Lesson and Learning Studies as models for teacher driven research and school development The book is written to support teachers and teacher educators wishing to reflect about learning and the struggle of learners to discern various concepts principles and practices As well as those who genuinely wish to see serious learning take place rather than simply seeing content covered including curriculum designers and developers educational researchers educational supervisors and leaders and student teachers as well as students of pedagogy and didactics We dedicate the book to teacher educators teachers and school leaders who are seriously striving to enhance students learning and understanding in different subject areas *Collecting for the Curriculum* Amy J. Catalano, 2015-09-28 If you re a librarian charged with collecting curriculum materials and children s literature to support the Common Core State Standards then this book the only one that offers explicit advice on collection development in

curriculum collections is for you While there are many publications on the Common Core for school librarians and K 12 educators no such literature exists for curriculum librarians at the post secondary level This book fills that gap standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards CCSS The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices The book begins with a primer on the CCSS and how curriculum librarians can support them Discussion of the Standards is then woven through chapters arranged by content area that share research based practices in curriculum development and instruction to guide you in curriculum selection Material types covered include games textbooks children s literature primary sources counseling and nonfiction Additional chapters cover the management of curriculum collections testing collections and instruction and reference as well as how to support and collect for special needs learners Current practices in collection development for curriculum materials librarians are also reviewed The book closes with a discussion of the future of curriculum materials
