This extract focuses on the reasons for Lenin's New Economic Policy.

In March 1921 Lenin announced the end of War Communism and the inauguration of a New Economic Policy. The NEP was based on the following:

Requisitions from peasants were ended and a fixed tax in kind (grain) was substituted – which by 1924 had become a money tax. Once this tax was paid, the peasant was free to do what he liked with what remained. He could use it himself, sell it to the state or sell it on the open market which was now made legal. Private enterprise was allowed in trade and small-scale industry. Compulsory labour ceased; labour armies were stopped; bonuses were introduced for extra work. The currency was back on a sound footing and a regular system of taxation was introduced. Large-scale industry (coal, iron, steel, oil, electricity, railways) remained state-owned.

1.3 Refer to Source C.

1.3.1 Explain in your own words how Lenin's New Economic Policy was implemented.

(3)

The New Economic Policy was a drastic adaptation to the war communist policy, which allowed for a free market, private trade and enterprise. Private trade was no longer illegal, or government centralised. People paid a portion of their goods or income in the form of tax and were permitted to sell the rest on the open market. This stimulated the economy and encouraged economic growth.

1.3.2 In what ways was the New Economic Policy different to Lenin's ideal of a communist state? Support your answer with evidence from the source.

(3)

A communist state is one in which all individuals are equal. Under the NEP certain individuals profited more than others, which is a distinctly capitalist feature. This automatically created a sense of inequality and reduced the government's power and influence.

1.3.3 What was Lenin's intention for the state in creating the New Economic Policy?

(2)

It was Lenin's intention to recover the economy and to suppress peasant unrest, while still providing for the needs of the government.

Sherwin, Danielle Celermajer, 2021-03-11 The period since the First World War has been a century distinguished by the loss of any unitary foundation for truth ethics and the legitimate authority of law With the emergence of radical pluralism law has become the site of extraordinary creativity and on occasion a source of rights for those historically excluded from its protection A Cultural History of Law in the Modern Age tells stories of human struggles in the face of state authority including Aboriginal land claims popular resistance to corporate power and the inter generational ramifications of genocidal state violence The essays address how and with what effects different expressive modes ceremonial dance live street theater the acoustics of radio the affective range of film to name a few help to construct memorialize and disseminate political and legal meaning Drawing upon a wealth of visual textual and sound sources A Cultural History of Law in the Modern Age presents essays that examine key cultural case studies of the period on the themes of justice constitution codes agreements arguments property and possession wrongs and the legal profession *Burnt by Democracy* Jacqueline Kennelly, 2023-11-30 Burnt by Democracy traces the political ascendance of neoliberalism and its effects on youth The book

explores democracy and citizenship as described in interviews with over forty young people ages 16 to 30 who have either experienced homelessness or identify as an activist living in five liberal democracies Canada Australia New Zealand the United States and the United Kingdom Highlighting significant cuts to social and affordable housing astronomical increases in the costs of higher education and the transformation and erosion of state benefits systems Jacqueline Kennelly argues that democracy's decline is not occurring because young people are apathetic or focused on informal politics or unaware of their civic duties Rather it is because of collective misunderstanding about how democracy is actually structured how individuals learn to participate and how growing wealth inequality has undermined the capacity of those at the bottom to meaningfully advocate for changes that might improve their conditions Against a vivid and often heart breaking backdrop of stories from young people struggling to survive and thrive under conditions of ever expanding state retrenchment and inequality *Burnt by Democracy* makes a timely and impassioned plea for protecting and strengthening democracy by truly levelling the playing field for all

Kennedy, 2020-07-28 The book explores the state of social studies education within selected East Asian societies and provides some insights into distinctive classroom practices In an increasingly volatile and unpredictable world the education of young people who both understand the contexts in which they are growing up and see the need for engaging with them is a top priority This task falls to social studies education which carries the responsibility for inducting young people into their social world and helping them to see the role they can play within it This is particularly important in East Asia where strong economic growth long held cultural values and diverse political systems create an environment that challenges young people on multiple fronts This book with its team of regional authors shows how different societies in the region are dealing with these challenges and what can be expected from future citizens The book will appeal to policy makers researchers and teachers interested in the current state of social studies education in East Asian societies **Innovation in China** William H.A. Johnson, 2015-07-22 The word innovation is often used today regarding China as if the concept were new to the Eastern country Most people know however that China was a juggernaut in creating new technologies and at one time was the innovation king of the world but that was at least seven centuries ago Today the great oriental power is attempting once again to take the throne of innovation for its own This desire to usurp the throne which had been diligently taken by the West during the Scientific Revolution has placed an almost unrealistic emphasis on innovation In Innovation in China The Tail of the Dragon the author explores the issues and actors involved in making innovation the emphasis in China He uses a simple systems model of innovation and various perceptual lenses The lenses are aimed at the historical economic political legal educational and cultural elements of an innovation based society After reading the book the reader will understand more about how innovation is happening in China and by whom More importantly the reader will begin a journey of learning more about where the country is going as it relentlessly continues its drive to create an innovation based society and to become once again in terms appropriate to its history the Emperor of Innovation **English Language Learners and the New Standards** Margaret Heritage, Aída Walqui, Robert Linqianti, 2020-01-15 In English Language Learners and the New

Standards three leading scholars present a clear vision and practical suggestions for helping teachers engage ELL students in simultaneously learning subject area content analytical practices and language This process requires three important shifts in our perspective on language and language learning from an individual activity to a socially engaged activity from a linear process aimed at correctness and fluency to a developmental process focused on comprehension and communication and from a separate area of instruction to an approach that embeds language development in subject area activities In English Language Learners and the New Standards the authors Clarify the skills and knowledge teachers need to integrate content knowledge and language development Show how teachers can integrate formative assessment in ongoing teaching and learning Discuss key leverage points and stress points in using interim and summative assessments with ELLs Provide classroom vignettes illustrating key practices Finally the authors explain the theories and research that underlie their vision and examine the role of policy in shaping pedagogy and assessment for ELL students

Small Arms Mia Bloom, 2019-05-15 Why do terrorist organizations use children to support their cause and carry out their activities Small Arms uncovers the brutal truth behind the mobilization of children by terrorist groups Mia Bloom and John Horgan show us the grim underbelly of society that allows and even encourages the use of children to conduct terrorist activities They provide readers with the who what when why and how of this increasingly concerning situation illuminating a phenomenon that to most of us seems abhorrent And yet they argue for terrorist groups the use of children carries many benefits Children possess skills that adults lack They often bring innovation and creativity Children are in fact a superb demographic from which to recruit if you are a terrorist Small Arms answers questions about recruitment strategies and tactics determines what makes a child terrorist and what makes him or her different from an adult one and charts the ways in which organizations use them The unconventional focus on child and youth militants allows the authors to in essence give us a biography of the child terrorist and the organizations

that use them We are taken inside the mind of the adult and the child to witness that which perhaps most scares us
