Marijuana Federalism Jonathan H. Adler,2020-03-17 On marijuana there is no mutual federal state policy will this cause federalism to go up in smoke More than one half the 50 states have legalized the use of marijuana at least for medical purposes and about a dozen of those states have gone further legalizing it for recreational use Either step would have been almost inconceivable just a couple decades ago But marijuana remains an illegal controlled substance under a 1970 federal law so those who sell or grow it could still face federal prosecution How can state and federal laws be in such conflict And could federal law put the new state laws in jeopardy at some point This book an edited volume with contributions by highly regarded legal scholars and policy analysts is the first detailed examination of these and other questions surrounding a highly unusual conflict between state and federal policies and laws Marijuana Federalism surveys the constitutional issues that come into play with this conflict as well as the policy questions related to law enforcement at the federal versus state levels It also describes specific areas such as banking regulations in which federal law has particularly far reaching effects Readers will gain a greater understanding of federalism in general including how the division of authority between the federal and state governments operates in the context of policy and legal disputes between the two levels This book also will help inform debates as other states consider whether to jump on the bandwagon of marijuana legalization **Material Powers** Tony Bennett,Patrick Joyce,2013-05-13 This edited collection is a major contribution to the current development of a material turn in the social sciences and humanities It does so by exploring new understandings of how power is made up and exercised by examining the role of material infrastructures in the organization of state power and the role of material cultural practices in

the organization of colonial forms of governance A diverse range of historical examples is drawn on in illustrating these concerns from the role of territorial engineering projects in seventeenth century France through the development of the postal system in nineteenth century Britain to the relations between the state and road building in contemporary Peru for example The colonial contexts examined are similarly varied ranging from the role of photographic practices in the constitution of colonial power in India and the measurement of the bodies of the colonized in French colonial practices to the part played by the relations between museums and expeditions in the organization of Australian forms of colonial rule These specific concerns are connected to major critical re examination of the limits of the earlier formulations of cultural materialism and the logic of the cultural turn The collection brings together a group of key international scholars whose work has played a leading role in debates in and across the fields of history visual culture studies anthropology geography cultural studies museum studies and literary studies **British Education Index** ,1997
