After the Education Wars Andrea Gabor, 2018-06-12 The education wars have been demoralizing for teachers After the Education Wars helps us to see a better way forward Cathy N Davidson The New York Times Book Review After the Education Wars is an important book that points the way to genuine reform Diane Ravitch author of *Reign of Error* and *The Death and Life of the Great American School System* A bestselling business journalist critiques the top down approach of popular education reforms and profiles the unexpected success of schools embracing a nimbler more democratic entrepreneurialism In an entirely fresh take on school reform business journalist and bestselling author Andrea Gabor argues that Bill Gates Eli Broad and other leaders of the prevailing education reform movement have borrowed all the wrong lessons from the business world After the Education Wars explains how the market based measures and carrot and stick incentives informing today's reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up lessons also learned from both the open source software and quality movements The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state's once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life A welcome exception to the doom and gloom canon of education reform After the Education Wars makes clear that what's needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools

*Strength and Drive* Robert A. Doughty, 2014-12-18 The Class of 1965 entered the Military Academy in July 1961 As cadets they received a traditional West Point education but also studied new fields such as computers and nuclear physics Upon graduation members of the class received numerous national scholarships including one Rhodes scholarship During the Vietnam War members of the class received no less than one Medal of Honor four Distinguished Service Crosses one Air Force Cross 94 Silver Stars 5 Soldier's Medals 175 Bronze Stars with V device for valor and 129 Purple Hearts In later years members of the class served with distinction in Grenada Panama Iraq and elsewhere They became leaders in transforming the army after the Cold War into a much leaner more agile technologically advanced force Those who left the service whether after four years in uniform or more contributed to the nation in a similarly impressive manner As civilians they excelled in numerous fields and exhibited as much patriotism and *Strength and Drive* as those still in uniform Whether in uniform or not members of the class of 1965 served their communities and nation and never lost sight of the meaning of West Point's motto Duty Honor Country

**System Recall** Alma Harris, Michelle S. Jones, 2019-10-17 This book argues that much of what passes as contemporary educational reform in education is faulty and damaging It argues that it is time for a system recall and a need to look at what matters most in the pursuit of educational goals The book focuses on what we know about contemporary educational improvement transformation and change It will provide insights into what strategies work long term to build the capacity for principled change at the school and system level The book will consider what leaders can do to secure principled school and system improvement which fully embraces diversity equity and equality It will also dispel some myths about reform at scale and challenge some prevailing ideas about educational change that it will be posited are not helping many young people to reach their potential The main argument of the book is that too many school and system improvement initiatives have not paid sufficient attention to equity issues in their pursuit of ever higher achievement and that the net effect of large scale international assessments have been to distract policy makers in ways that have not always benefitted young people The book will use system examples to underpin and exemplify six core ways of re booting the system and generating progress for all It will highlight the implications for school and system leaders *The Athenaeum* ,1914
