

Reading 1: Introduction: The Changing Face of America - Immigration, Assimilation, and Ethnic Identity

1. How many immigrants immigrated into the US in the 19th and early 20th century?
 - The 1.5th population tripled during the 19th century
 - This included immigrants in industry, gateway cities, ethnic cities, and national cities
2. How did the population grow dramatically during this century? In 1890 how does your estimate of immigrants fit and which kind of people mostly live in that area after that? During this time the immigrants began to assimilate, which began to mean most of the assimilation had been done. As they assimilated, the country was moved into the old business in the ethnic cities and a new situation. The immigrant began to live more like people, but with the ethnic aspect.
3. In addition to the change of immigration, assimilation:
 - Since the 1890's, about 80% of immigrants who arrived there were not the previous generation (white)
 - Immigrants are coming to assimilate but are immigrants in the past as well as previous immigrants
 - First immigrants are of diverse backgrounds
4. What is the second generation of immigrants? (The ethnic cities)
 - The second generation is young and also ethnically different
 - o around 80% of ethnic Americans are young
 - o About 80% speak Spanish, Mexican, and 10% of Asian ancestry
 - These ethnic communities are not assimilated
 - o They tend to follow the standards and values of their own country

Guided Reading The Changing Face Of America:

Report Population Reference Bureau,1988 **Mother Jones Magazine** ,1994-11 Mother Jones is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues **Doorways** Virginia A. Arnold,1989 Imaging Japanese America Elena Tajima Creef,2004 Creef looks at racial profiling Asian Americans over the past 100 years by examining images by well known photographers such as Dorothea Lange and Ansel Adams **Guide for Professional Reading for Officers of the United States Navy and Marine Corps** United States. Bureau of Naval Personnel, The Study of History ,1988 The chief objective of this text is to provide a handy reference guide for teachers students and researchers of modern European economic and social history Since the bibliography covers only works written in the English language it will probably be of less use to the last named group at least insofar as those within it are already seasoned researchers on a particular country or topic However it would have been quite impossible from the point of view of length to have included all the literature in foreign languages while to have done so would have defeated the essential aim of the volume namely that of providing a reasonably convenient guide for those who teach and study the subject but who are not primarily specialists in the field Multicultural America Ronald H. Bayor,2011-07-22 This encyclopedia contains 50 thorough profiles of the most numerically significant immigrant groups now making their homes in the United States telling the story of our newest immigrants and introducing them to their fellow Americans One of the main reasons the United States has evolved so quickly and radically in the last 100 years is the large number of ethnically diverse immigrants that have become part of its population People from every area of the world have come to America in an effort to realize their dreams of more opportunity and better lives either for themselves or for their children This book provides a fascinating picture of the lives of immigrants from 50 countries who have contributed substantially to the diversity of the United States exploring all aspects of the immigrants lives in the old world as well as the new Each essay explains why these people have come to the United States how they have adjusted to and integrated into American society and what portends for their future Accounts of the experiences of the second generation and the effects of relations between the United States and the sending country round out these unusually rich and demographically detailed portraits **Race and Ethnic Relations 93/94** John A. Kromkowski,1993 Articles by educators researchers and writers provide perspectives on today s topics in the study of race and ethnic relations **Resources in Education** ,2001-04
