Hrsdc Work Place Committee Report:

Employment Equity in Canada Carol Agocs, 2014-07-31 In the mid 1980s the Abella Commission on Equality in Employment and the federal Employment Equity Act made Canada a policy leader in addressing systemic discrimination in the workplace More than twenty five years later Employment Equity in Canada assembles a distinguished group of experts to examine the state of employment equity in Canada today Examining the evidence of nearly thirty years the contributors both scholars and practitioners of employment policy evaluate the history and influence of the Abella Report the impact of Canada's employment equity legislation on equality in the workplace and the future of substantive equality in an environment where the Canadian government is increasingly hostile to intervention in the workplace They compare Canada's legal and policy choices to those of the United States and to the UN Convention on the Rights of Persons with Disabilities and examine ways in which the concept of employment equity might be expanded to embrace other vulnerable communities Their observations will be essential reading for those seeking to understand the past present and future of Canadian employment and equity policy

Workplace Gazette, 2004 Changing Work Relationships in Industrialized Economies I?ik Urla Zeytino?lu, 1999-11-15 This book examines changing work relationships in industrialized economies within the context of economic restructuring and demographic variables The goal of this book is to examine experiences of industrialized economies in dealing with changing work relationships and discuss policy implications of creating such work relationships The thesis of the book is that non standard employment forms in restructuring economies affected all workers but particularly females and the youth Other demographic variables of education level race ethnicity immigrant status ability and economic class were also underlying forces in the construction and arrangements of non standard work Research shows both positive and negative effects of changing work relationships on workers though there is no conclusive result whether one or the other affect is stronger The discussion in this book pays attention to this debate and sheds light on it This book differs from others in its comprehensiveness of the coverage of work relationships referring to part time temporary casual telework

and self employment without employees in its examination of a variety of variables including gender age race ethnicity immigrant status ability education level and economic class in the analysis of the topic in relation with the economic restructuring and in its initiative in collaboration of researchers from a variety of backgrounds and regions of the world that have expertise on changing work relationships Hard Choices, Soft Law John J. Kirton, Michael J. Trebilcock, 2017-03-02 An important read for academics and policy makers alike Hard Choices Soft Law asserts that voluntary standards or soft law are an important supplement to international law in a number of areas This key work firstly outlines the approach taken to combining soft and hard law and trade environment and labour values in the WTO and NAFTA and in the prospective Millennium Round Then using the forestry sector a realm where formal international law remains largely absent the book provides a detailed examination of the role of soft law in action It demonstrates how soft and hard law can be combined to promote trade environmental and social cohesion in ways that also permit sustainable development The book presents a wealth of knowledge from a range of contributors familiar with the work of the G7 G8 the OECD the Biodiversity Convention and the Codex Alimentarius **The Politics of Public Management** David A. Good, Institute of Public Administration of Canada, 2003-01-01 David Good's The Politics of Public Management is a textbook case in public administration it deals with the events and circumstances surrounding the scandal of the grants and contributions audit at Human Resources Development Canada HRDC More specifically Good argues that the HRDC scandal or crisis was the result of a complex series of factors which transformed a fixable administrative matter into media headlines alleging that the government had lost one billion dollars The author further contextualizes this scandal by analyzing the dichotomies and contradictions inherent in public administration and supporting the larger premise that certain trade offs must be made in the administration of any public organization Good skillfully weaves together into a coherent and comprehensible whole both theoretical or conceptual and practical considerations He draws on current scholarship throughout his analysis and captures for the reader the nuances and complexities of public administration The first and only extensive critical examination to date of the events surrounding the scandal at HRDC this text offers an original and groundbreaking contribution to current scholarship on public administration and management in Canada **Official Report of the Debates of the House of Commons** Canada. Parliament. House of Commons, 2007-02 Integrating School and Workplace Learning in Canada Hans G. Schuetze, Robert Sweet, 2004-04 In response to concerns that the educational system from public schools through colleges universities and apprenticeship programs cannot adequately prepare students for work in the new economy Integrating School and Workplace Learning in Canada proposes alternation a hybrid form of learning that by combining experiential and cognitive learning skills allows individuals to develop the relevant skills and intellectual capabilities to address and solve complex problems encountered in the workplace Alternation involves not only a curricular balance between the theoretical and the practical but also two distinct venues for learning the classroom and the workplace The authors discuss cognitive and social

learning its implementation in a variety of settings its role in smoothing the school work transition process and its potential to contribute to the knowledge and skills needed by the workforce They bring a wide range of disciplinary perspectives to bear in their analyses of the principles and practices of alternation providing historical theoretical and practical insights Their analysis contributes to and extends the current debate and discussion surrounding necessary changes in our education and training practices

Report of the Committee of Experts on the Application of Conventions and

Recommendations International Labour Office, 2012 The Committee of Experts on the Application of Conventions and Recommendations whose work constitutes the cornerstone of the ILO's supervisory system on international labour standards has just published its annual report Career Development in the Federal Public Service Linda Elizabeth Duxbury, Lorraine S. Dyke, Natalie Lam, 1999 How Ottawa Spends 2008-2009 Allan Maslove, 2014-06-22 The twenty ninth edition of How Ottawa Spends focuses on the policies of the Harper government and the course of federal provincial relations Leading scholars of Canadian public policy explore several key policy areas including fiscal balance in the federation tax policy regulatory capacity the federal funding of territorial and northern Aboriginal governments child care policy higher education policy telecommunications policy and the rapid appearance and disappearance of the federal social economy initiative i.e. how Ottawa doesn't spend Contributors include Frances Abele Carleton IRPP Cheryl N Collier Carleton Geoffrey Hale University of Lethbridge Walter Hettich emeritus California State Edward T Jackson Carleton Rianne Mahon Carleton Allan M Maslove Carleton Clara Morgan Carleton Michael J Prince University of Victoria Richard Schultz McGill Robert Slater Carleton Barry Stemshorn University of Ottawa and Stanley L Winer Carleton How Ottawa Spends, 2009-2010 Allan M. Maslove, 2009 This is the thirtieth volume in the series How Ottawa Spends It is arguable that never in these years have Canadians faced such serious economic upheaval and political dysfunction as the current climate The dramatic and seemingly sudden changes in the economy occurred simultaneously with a political drama one that was largely disassociated from the real and pressing economic challenge Early Harper budgets delivered lower taxes for all Canadians partly through highly targeted but politically noticeable small tax breaks on textbooks for students tools for apprentices in skilled trades and public transit costs The needs of the beleaguered average Canadian and the swing voter in the swing constituencies of an already strategized next election were a key part of Conservative agenda setting In the 2007 budget alone there were twenty nine separate tax reductions and federal spending was projected to increase by 10 billion including a 5.7 percent increase in program spending A small surplus of 3.3 billion was planned almost all of which would go to debt reduction As Harper savoured his 14 October 2008 re-election with a strengthened minority government although without his desired majority he and his minister of Finance already knew that his surpluses were likely gone in the face of the crashing financial sector and a looming recession Future deficits were firmly back on the agenda Contributors include Malcolm G Bird Carleton University Chris Brown Carleton University G Bruce Doern Carleton University and University of Exeter Melissa Haussman Carleton University Robert Hilton Carleton University Ruth Hubbard University of Ottawa Edward T Jackson Carleton University Kirsten Kozolanka Carleton University Evert Lindquist University of Victoria Allan M Maslove Carleton University Peter Nares Social and Enterprise Development Innovations Gilles Paquet University of Ottawa L Pauline Rankin Carleton University Jennifer Robson Carleton University Robert P Shepherd Carleton University Richard Shillington Informetrica Limited and Chris Stoney Carleton University Training the Excluded for Work Marjorie Griffin Cohen, 2003 In recent years job training

programs have suffered severe funding cuts and the focus of training programs has shifted to meet the directives of funders rather than the needs of the community How do these changes to job training affect disadvantaged workers and the unemployed In an insightful and comprehensive discussion of job education in Canada Cohen and her contributors pool findings from a five year collaborative study of training programs Good training programs they argue are essential in providing people who are chronically disadvantaged in the workplace with tools to acquire more secure better paying jobs In the ongoing shift toward a neo liberal economic model government policies have engendered a growing reliance on private and market based training schemes These new training policies have undermined equity In an attempt to redress social inequities in the workplace the authors examine various kinds of training programs and recommend specific policy initiatives to improve access to these programs This book will be of interest to policymakers academics and students interested in policy work equity gender and education
