Read the passage carefully and answer the following questions:

The term 'diaspora' is used to refer to people who have left their homelands and settled in other parts of the world, either because they were forced to do so or because they wanted to leave on their own. The word is increasingly used for such people as a collective group and/or a community. The world has seen many diasporas but scholars have been studying the phenomenon with great interest only in recent decades.

Among the great diasporas of history is that of the Jewish people, who were forced to leave their lands in ancient times. The movement of Aryans from Central Europe to the Indian sub-continent thousands of years ago is also a noteworthy diaspora, although the causes of this diaspora are unclear. In twentieth century history, the Palestinian diaspora has attracted a lot of attention and been a cause of concern for world leaders because of the plight of Palestinians. There have been massive diasporas in Africa, too, over the centuries, either because of war or because of the ravages of nature. But the chief reason why the phenomenon of diaspora is attracting so much attention now is globalization.

Charting an Asian Trajectory for Literacy Education Su Li Chong, 2021-03-14 Weaving outwards from a centripetal force of biographical stances, this book presents the collective perspectives of literacy researchers from Brunei, China, Hong Kong, Malaysia, Singapore, the Philippines, and Taiwan. It represents the first all-Asian initiative to showcase the region's post-colonial multilingual and multicultural narratives of literacy education. This book provides a much-needed platform that initiates important conversations about literacy as a sociocultural practice in a region that is both challenged and shaped by sociocultural influence unique to Asia's historical and geopolitical trajectory. Driven by the authors' lived experiences of becoming literate as well as their empirical research work in later years, each chapter brings decades of biographical narratives and collective empirical research findings to bear. Within the book are negotiations about literacy across and within home and school contexts, transactions of literature, text and reader, and considerations of the literacy policy practice nexus. These trajectories, while divergent in their issues, come together as shared lived experience located in local contexts considered through global perspectives. As Asia looks set to become the 21st century's new economic and labour force, the need to understand the sociocultural milieu of this region cannot be understated. This book on literacy education in Asia contributes to the larger narrative.

First of all I am giving thanks in front of the Most Merciful Almighty There is no substitute for a good GPA in HSC if you want to move forward in the current era of success But at HSC we do badly in English I have not been able to read English since childhood After reading the same tick for so many years the students have to go to the private tutor for HSC for English I wrote the book English A to get rid of all these problems There is a video class created by me which is taken on Nahid24 YouTube channel so that you don't have to read any problem while reading the book If a student takes the book in hand and conducts all the YouTube classes regularly then he/she will not need any other private tutor In HSC English 1st and 2nd paper questions come from certain topics but students cannot finish even half of it at the end of the year by reading a very thick book But if someone reads only the necessary topics well for 2 months then he will be able to get good results in English If any student can finish this book completely I hope he will get A in English 1st and 2nd 2 subjects InshaAllah This book is completely different from other books There is nothing less important in the book So nothing should be left out Each topic is given a writing technique and

some important examples By mastering the techniques and practicing the examples one can overcome the weakness of HSC English in a short time If he can master the book well then he will succeed in HSC exam InshaAllah I think my hard work and effort will be successful only if the students benefit from reading this book Since no book other than the Qur an alone is perfect and man is not above error so reluctantly if there is any mistake in the book you will look at it with forgiveness
