Advancing Africa's Sustainable Development Alain L. Fymat, 2018-11-14 While many African countries lag behind the rest of the industrialised world in scientific and medical research and development the situation is progressively improving This is why the Society for the Advancement of Science in Africa was established to contribute to economic advancement and sustainability through science research education and innovation This book provides a selection of papers from the Advancement of Science in Africa's fourth annual conference The conference was held under the overarching theme of science technology and innovation in Africa with several important sub themes including but not limited to improving health research and disease surveillance education collaborating in research responding to epidemic diseases with high mortality in Africa and promoting women's interest in science careers The collection illustrates how although the chapter contributors come from various countries and universities representing their own academic research they all share a common interest in advancing science technology and innovation in Africa

The Mechanics' Magazine and Journal of Engineering, Agricultural Machinery, Manufactures and Shipbuilding, 1869 **Mechanics magazine**, 1869 **Mechanics Magazine** John I Knight, 1869 *A Season of Inquiry* Loch K. Johnson, 2015-01-13 The civil rights movement protests against the Vietnam War Watergate rumors and revelations stemming from these and other events provoked in the 1970s a rising clamor against the scope and conduct of American intelligence operations Finally in 1975 Congress launched investigations of the Central Intelligence Agency the Federal Bureau of Investigation and other federal agencies in the intelligence community This is the story of one of those investigations that by the Senate committee chaired by Frank Church of Idaho The hearings of the Church committee together with investigations by the House of Representatives and a presidential commission rocked the intelligence bureaucracy like nothing before even the CIA's involvement in Kennedy's Bay of Pigs debacle paled in comparison A deep schism developed within the Senate committee and the House of Representatives was torn by acrimony and recrimination From his special vantage point as an investigator and aide to Senator Church Loch Johnson incisively portrays the human element jealousy friendship pique ambition fatigue in these deliberations and traces the tangled lines of conflict and cooperation that stretch between Congress and the White House Season of Inquiry affords a unique look at the workings of the United States Senate not in its ordinary day to day business but in the heat and glare of publicity during the conduct of a major inquiry
