

James Dines **Predicts A Buying** **Panic In Uranium**

Over the years, Dines successfully forecast the Internet mania, forecasting the giants of the tech boom, and forecasting the tech bust. A gold bug again, Dines also added uranium as the metal to watch over the coming years, saying, "This is my way of playing the whole coming energy boom."

Interviewer: You have been calling a bull market in uranium and, once again, you were the first voice in the now-growing crowd of uranium bulls.

James Dines: What a surprise.

Interviewer: Why are you bullish on uranium?

James Dines: It's very important to get into a bull market early. The earlier, the better. That's when the biggest percentage gains are made. That's why we got into the Internet very early. We stopped out in 2000. We were in cash for a year and then went to metals, as the way to play the China boom in 2001. We're still in those. In 2002, we turned bullish on uranium as a unique way to play the coming boom in the whole energy complex.

Interviewer: But why uranium, as opposed to another type of metal?
