

Well-known for its balanced approach to media industries and professions, **THE DYNAMICS OF**

Mass **Comm**unication

offers a lively, thorough, and objective introduction for mass communication majors and non-majors alike. This new edition embraces the digital age and brings students up-to-date on the latest developments in mass communication, including iPods, blogs, broadband TV channels, user-generated content such as YouTube, social networking sites, and Web 2.0.

Praise for Dominick, *The Dynamics of Mass Communication*:

"How would I describe Dominick? It's the standard core course approach in the introduction to mass communications. The essential elements are all present. It's not a difficult read. Its greatest strengths: writing, organization, illustrations and I appreciate the fact that Joe works to keep it up to date. It is the **ONLY** book I've ever used where on student evaluations I get positive comments like, 'I really enjoyed the textbook.'"

Donald Godfrey
Arizona State University

"Dominick is, in my professional opinion, still the most comprehensive book on the market. It deals with the topics I believe to be crucial to the intro course: history, news, advertising, law, public relations, ethics, and communication theory. It is current. It has changed as the intro course has required changes. It's competent. It's reliable. You cannot go wrong choosing Dominick."

Gregory Lisby
Georgia State University
