OVERVIEW

adidas Real Time represents the state-of-the-art in performance monitoring. The state of the art system gives athletes and coaches powerful, real-time tools that help them optimize and maximize peak physical performance and gain an edge in their competition.

Users can view an overall plan, track, live, average and report on the performance of athletes with our integrated system.

The adidas Real Time System is designed to perform tasks that are necessary and essential, including:

- Provide real-time insights during training
- Track real training impact and form
- Simplify the collection and management of data
- Add flexibility with a highly portable system

HOW IT WORKS

adidas Real Time System uses some of the art sensor technologies along with computer algorithms, open source hardware and wireless communication to provide real-time monitoring of athletes in real time.

adidas brings together GPS, heart rate, velocity, heart rate monitoring, and other technologies along with an understanding of athlete athletes and their training and developmental needs. Its patented algorithms process millions of data points in less than a second, resulting in:

WHAT IT MEANS

adidas Real Time was designed to help athletes of all levels and not just those who are elite. It's a simple, intelligent feedback for coaches who need to understand how training is impacting athletes and their performance.
