Handbook of Diachronic Narratology Peter Hühn, John Pier, Wolf Schmid, 2023-07-24 This handbook brings together 42 contributions by leading narratologists devoted to the study of narrative devices in European literatures from antiquity to the present Each entry examines the use of a specific narrative device in one or two national literatures across the ages whether in successive or distant periods of time Through the analysis of representative texts in a range of European languages the authors compellingly trace the continuities and evolution of storytelling devices as well as their culture specific manifestations In response to Monika Fludernik's 2003 call for a diachronization of narratology this new handbook complements existing synchronic approaches that tend to be ahistorical in their outlook and departs from postclassical narratologies that often prioritize thematic and ideological concerns A new direction in narrative theory diachronic narratology explores previously overlooked questions from the evolution of free indirect speech from the Middle Ages to the present to how changes in narrative sequence encoded the shift from a sacred to a secular worldview in early modern Romance literatures An invaluable new resource for literary theorists historians comparatists discourse analysts and linguists

J.M. Coetzee David Attwell, 1993-06-11 David Attwell defends the literary and political integrity of South African novelist J M Coetzee by arguing that Coetzee has absorbed the textual turn of postmodern culture while still addressing the ethical tensions of the South African crisis As a form of situational metafiction Coetzee's writing reconstructs and critiques some of the key discourses in the history of colonialism and apartheid from the eighteenth century to the present While self-conscious about fiction making it takes seriously the condition of the society in which it is produced Attwell begins by describing the intellectual and political contexts surrounding Coetzee's fiction and then provides a developmental analysis of his six novels drawing on Coetzee's other writings in stylistics literary criticism translation political journalism and popular culture Elegantly written Attwell's analysis deals with both Coetzee's subversion of the dominant culture around him and his ability to see the complexities of giving voice to the anguish of South Africa
