As you hire people to help handle your success, the task of managing your employees can take more time and effort than any other part of running a business. Very few small business owners even consider an employee handbook until something goes wrong. But there are many important reasons why you need one: reasons that will save you time and money. Managing your employees with the professional human resources systems used by the top corporations will not only protect your business in case of a problem, it will increase performance and productivity in your employees. Here are a few examples: Professional discipline and termination practices safeguard your business from lawsuits. Reduce unemployment and workers comp premiums. Keep morale high with clear standards for performance. Fair and legal vacation policies motivate employees to do their best. Performance evaluations increase morale and eliminate conflicts. Your employees do their jobs without constant supervision, freeing you to focus on growing your business. Employees work best when they know exactly what is expected of them. Having specific goals to work toward helps them measure how well they are doing in their positions. It will also help you to either improve the performance of your weakest links or terminate them without problems or penalties to your business. Your Employee Handbook is recommended by Entrepreneur.com and Fortune Small Business Magazine. It is endorsed by associations such as the Wisconsin Home Builders Association and Uniform Retailers Association and used by thousands of small businesses, including attorneys.
