Encounters Of A Traveling Man English Edition:

British Encounters with Ottoman Minorities in the Early Seventeenth Century Eva Johanna Holmberg, 2022-05-12 British travellers regarded all inhabitants of the seventeenth century Ottoman empire as slaves of the sultan yet they also made fine distinctions between them This book provides the first historical account of how British travellers understood the non Muslim peoples they encountered in Ottoman lands and of how they perceived and described them in the mediating shadow of the Turks In doing so it changes our perceptions of the European encounter with the Ottomans by exploring the complex identities of the subjects of the Ottoman empire in the English imagination de centering the image of the Terrible Turk and Islam

Music, Travel, and Imperial Encounter in 19th-Century France Ruth Rosenberg, 2014-09-19 This book considers the activities and writings of early song collectors and proto ethnomusicologists memoirists and other musical travelers in 19th century France Each of the book s discrete but interrelated chapters is devoted to a different geographic and discursive site of empire examining French representations of musical encounters in North America the Middle East as well as in contested areas within the borders of metropolitan France Rosenberg highlights intersections between an emergent ethnographie musicale in France and narratives of musical encounter found in French travel literature connecting both phenomena to France s imperial aspirations and nationalist anxieties in the period from the Revolution to the late nineteenth century It is therefore an excellent research tool for scholars in the fields of ethnomusicology musicology cultural studies literary history and postcolonial studies

British Encounters with Syrian-Mesopotamian Overland Routes to India, 1751-1795 Mohammad Sakhnini, 2023-03-14 This book argues that eighteenth century British travel writings about the Arabian Overland Routes to India offered fascinating anecdotes of encounters that allow us to rethink Enlightenment understanding of the meaning of improvement Travelling among and writing about the inhabitants government culture religion and ruins of Syria and Mesopotamia offered Britons opportunities to pose themselves in their narratives as men of improvement abroad To that end travelling appeared in their books as serious attempt to improve their readers knowledge about a region that many in Britain saw as decayed barbaric and primitive But the various encounters British travellers experienced in the region allowed them to negotiate the impact of excessive materialism on the traditions morality religion and landscape of eighteenth century Britain At the heart of this book s understanding of Enlightenment writings about the Levant is the idea that a journey in a region which many considered as a theatre for the arts sciences and military conquests in the past and decay in the present represents a fraught relationship modern Europeans had with the past present and future

British Travellers and the Encounter with Britain, 1450-1700 John Cramsie, 2015 Encounters with a multicultural Britain in the Tudor and Stuart periods written with an eye to debates about immigration and ethnicity in today s Britain This book recovers the encounter with a multicultural Britain by British travellers in the Tudor and Stuart periods When William Camden writing in the sixteenth century set out to write the history of Britannia he deliberately took to the roads to discover

it first hand and those diverse cultures guided and informed his journeys Here John Cramsie offers original perspectives on Camden s multicultural Britain through the study of British travellersand their narratives We meet characters such as the Tudor traveller John Leland who intended to tell the peoples of England and Wales about themselves chronicle how they came to settle the towns villages valleys and mountaintops they called home record the marks they left in the landscape and celebrate the noble histories and cultures they created Dozens eventually hundreds of Britons shared the same passion to meet their island neighbours and relate their experiences The individuals studied in this book include actual as well as armchair travellers and those who blurred the boundaries between them Their letters diaries journals and histories range from the epic poignant and matter of fact to the exotic preposterous and hateful the sources include actual and imaginative narratives and those which combined both elements Travellers painted Britain with in Leland s words native colours that were rich vibrant and above all complex Their remarkable journeys are the story of how Britons over two centuries met interacted and attempted or not to understand one another Written with an eye to debates aboutimmigration and ethnicity in today s Britain the book emphasizes the long history of making and remaking the island s cultural mosaic The encounter with Britain s native colours has been a burden of history and opportunity formillennia not simply for our own times JOHN

Sex, Tourism and the Postcolonial Encounter Jessica Jacobs,2012-11-28 Illustrated by revealing interviews with women and men in the tourist resorts in the Sinai Egypt this book is ostensibly about western women who sleep with native men while on holiday Broadening the scope of issues involved it examines the link between these holiday romances and a much wider romanticism of place and people of the landscapes of paradise deserts and the lure of the Bedouin sheikh that are used to sell these destinations It argues that the romantic stereotyping and deliberate positioning of Third World resorts

as places that somehow exist outside of the modernities the women come from is inextricably bound up in the relationships. Similarly for the local man the tourist resort is perceived as a place other than his own cultural space and time and represents a modernity that is otherwise only found in the West. The relationships that ensue can therefore only occur because the tourist resort acts as an intermediate space. In analyzing the interaction of these men and women within the context of modernity the book provides insights into gender issues to do with globalization travel and sexuality as well as opening up the debate on sex tourism and showing this to be a lot more ambiguous and complicated than it might at first appear.

Handbook of British Travel Writing Barbara Schaff, 2020-09-07 This handbook offers a systematic exploration of current key topics in travel writing studies. It addresses the history impact and unique discursive variety of British travel writing by covering some of the most celebrated and canonical authors of the genre as well as lesser known ones in more than thirty close reading chapters. Combining theoretically informed astute literary criticism of single texts with the analysis of the circumstances of their production and reception these chapters offer excellent possibilities for understanding the complexity and cultural relevance of British travel writing.

Granite, 1914 **Encounters with Emotions** Benno Gammerl, Philipp Nielsen, Margrit Pernau, 2019-06-06 Spanning Europe Asia and the Pacific *Encounters with Emotions* investigates experiences of face to face transcultural encounters from the seventeenth century to the present and the emotional dynamics that helped to shape them. Each of the case studies collected here investigates fascinating historiographical questions that arise from the study of emotion from the strategies people have used to interpret and understand each other's emotions to the roles that emotions have played in obstructing communication across cultural divides. Together they explore the cultural aspects of nature as well as the bodily dimensions of nurture and trace the historical trajectories that shape our understandings of current cultural boundaries and effects of globalization.

Travel Narratives in Translation, 1750-1830 Alison Martin, Susan Pickford, 2013-05-07 This book examines how non-fictional travel accounts were rewritten reshaped and reoriented in translation between 1750 and 1850 a period that saw a sudden surge in the genre's popularity. It explores how these translations played a vital role in the transmission and circulation of knowledge about foreign peoples lands and customs in the Enlightenment and Romantic periods. The collection makes an important contribution to travel writing studies by looking beyond metaphors of mobility and cultural transfer to focus specifically on what happens to travelogues in translation. Chapters range from discussing essential differences between the original and translated text to relations between authors and translators from intra-European narratives of Grand Tour travel to scientific voyages round the world and from established male travellers and translators to their historically less visible female counterparts. Drawing on European travel writing in English French German Spanish and Portuguese the book charts how travelogues were selected for translation how they were reworked to acquire new aesthetic political or gendered identities and how they sometimes acquired a radically different character and content to meet the needs and expectations of an

emergent international readership The contributors address aesthetic political and gendered aspects of travel writing in translation drawing productively on other disciplines and research areas that encompass aesthetics the history of science literary geography and the history of the book
