

ERB Meeting

The Engineering Review Board meeting occurs every second week to discuss changes, blockers and dependencies for the engineering teams.

- It is **not** defined as an approval mechanism. Approvals are granted at the TSC/SC level.
- It is a method to inform wider audiences of the changes and issues happening in engineering teams.
- Different from the TSC or SC meetings, it focuses on tactical and technical activities rather than strategic direction.

The committee is made up of engineering directors, the manager of the PMO, the director, project managers, and EVP and VP of engineering.
