This is the first book of its kind to address how bilinguals acquire store and process figurative language such as idiomatic expressions such as 'kick the bucket' metaphors such as 'lawyers are sharks' and irony and how these tropes might interact in real time across the bilingual's two languages. This volume offers the reader and the bilingual student an overview of the major strands of research both theoretical and empirical currently being undertaken in this field of inquiry. At the same time *Bilingual Figurative Language Processing* provides readers and undergraduate and graduate students with the opportunity to acquire hands on experience in the development of psycholinguistic experiments in bilingual figurative language. Describing and Explaining Grammar and Vocabulary in ELT Dilin Liu, 2013-08-15 Language description plays an important role in language learning teaching because it often determines what specific language forms, features and usages are taught and how. A good understanding of language description is vital for language teachers and material writers and should constitute an important part of their knowledge. This book provides a balanced treatment of both theory and practice. It focuses on some of the most important and challenging grammar and vocabulary usage questions. Using these questions as examples, it shows how theory can inform practice and how grammar and vocabulary description and explanation can be made more effective and engaging. Part I describes and evaluates the key linguistic theories on language description and teaching. Part II discusses and gives specific examples of how challenging grammar and vocabulary issues can be more effectively described and explained. Each chapter focuses on one or more specific grammar and vocabulary. An annotated list of useful free online resources, online corpora and websites for grammar and vocabulary learning and teaching and a glossary provide helpful information.
