Questions and Rhetoric in the Greek New Testament Douglas Estes, 2017-03-28 While there are almost 1000 questions in the Greek New Testament many commentators pastors and students skip over the questions for more theological verses or worse they convert questions into statements to mine them for what they are saying theologically However this is not the way questions in the Greek New Testament work and it overlooks the rhetorical importance of questions and how they were used in the ancient world Questions and Rhetoric in the Greek New Testament is a helpful and thorough examination of questions in the Greek New Testament seen from the standpoint of grammatical semantic and linguistic analysis with special emphasis on their rhetorical effects It includes charts tools and lists that explain and categorize the almost 1000 questions in the Greek New Testament Thus the user is able to go to the section in the book dealing with the type of question they are studying and find the exegetical parameters needed to understand that question Questions and Rhetoric in the Greek New Testament offers vibrant examples of all the major categories of questions to aid the reader in grasping how questions work in the Greek New Testament Special emphasis is given to the way questions persuade and influence readers of the Greek New Testament

Asking Questions Robert Fiengo, 2007-05-03 Asking Questions examines a central phenomenon of language the use of sentences to ask questions Although there is a sizable literature on the syntax and semantics of interrogatives the logic of questions and the speech act of questioning no one has tried to put the syntax and semantics together with the speech acts over the full range of phenomena we pretheoretically think of as asking questions Robert Fiengo not only does this but also takes up some more foundational issues in the theory of language By positioning the findings of contemporary grammatical theorizing within the larger domain of language use Fiengo challenges

the use theorist to acknowledge the importance of grammatical form and the grammarian to acknowledge the importance of use In addition to developing an Austinian distinction between four questioning speech acts and a proposal concerning the philosophy of language Asking Questions contains a useful discussion of the type token distinction and how use of language compares with use of other things Fiengo also considers the nature of multiple questions revealing what one must know to ask them and what speech acts one may perform when asking them Asking Questions advances our understanding of a wide range of issues in a number of important respects Scholars and students of linguistics and philosophy will find plenty to interest them in this pioneering work

What is Said R. Bertolet,1990-06-30 The notion of what someone says is perhaps surprisingly some what less clear than we might be entitled to expect Suppose that I utter to my class the sentence I want you to write a paper reconciling the things Russell claims about propositions in The Philosophy of Mathematics for next week A student who was unable to get up in time for class that day asks another what I said about the assignment Several replies are in the offing One an oratio recta or direct speech report is He said I want you to write a paper reconciling the things Russell claims about propositions in The Philosophy of Mathematics for next week Another an oratio obliqua or indirect speech report consists in the response He said that he wants us to write a paper reconciling Yet another reflecting a perhaps accurate estimate of the task involved editorializes He said he wants us to do the impossible Or aware of both this and my quaint custom of barring those who have not successfully completed the assignment from the classroom one might retort He said he doesn t want to meet next week Since says is construable in these various ways it is at best unhelpful to write something like Alice said Your paper is two days late thereby saying that Tom s paper was two days late

Collision of Realities Lars Schmeink, Astrid Böger, 2012-05-29 Even though the fantastic in its most inclusive definition has been a part of our culture for as long as it exists it has not been a prominent feature of European academic interest With its inherent transgressive moment the fantastic allows for an ideal space of the cultural negotiation of political social and physical boundaries which should place it at the center of popular cultural research not as is the case at its periphery But the commencing boom of fantastic themes in contemporary media production has facilitated a paradigmatic change in research prompting a wide interest in the fantastic in all its forms from fantasy to horror from fairy tale to science fiction This volume addresses this growing interest by reviewing the status of research on the fantastic in Europe so far and by providing a necessary outlook for the future In the essays current trends such as the liminality debate as well as established discourses as for example on genre theory are brought together to show interested researchers a network of interdisciplinary from literary media and social studies approaches towards the fantastic

[Ancient Greek Myth in World Fiction since 1989](#) Justine McConnell, Edith Hall, 2016-06-02 Ancient Greek Myth in World Fiction since 1989 explores the diverse ways that contemporary world fiction has engaged with ancient Greek myth Whether as a framing device or a filter or via resonances and parallels Greek myth has proven fruitful for many writers of fiction since the end of the Cold War This volume examines the varied ways that writers from around the world have turned to classical antiquity to articulate their own contemporary concerns Featuring contributions by an international group of scholars from a number of disciplines the volume offers a cutting edge interdisciplinary approach to contemporary literature from around the world Analysing a range of significant authors and works not usually brought together in one place the book introduces readers to some less familiar fiction while demonstrating the central place that classical literature can claim in the global literary curriculum of the third millennium The modern fiction covered is as varied as the acclaimed North American television series The Wire contemporary Arab fiction the Japanese novels of Haruki Murakami and the works of New Zealand's foremost Maori writer Witi Ihimaera
