Word's cluttered menus and even the pros can't find them all. For Word 2007, Microsoft redesigned the user interface completely, adding a tabbed toolbar that makes every feature easy to locate. Unfortunately, Microsoft's documentation is as poor as ever, so even if you find the features you need, you still may not know what to do with them. **Word 2007 for Starters: The Missing Manual** helps you master Word's redesigned user interface and gives you exactly what you need to create unique, attractive, and effective documents. **PowerPoint 2007 for Starters: The Missing Manual** E. A. Vander Veer, 2007-01-25. Fast-paced and easy to read, this new book teaches you the basics of PowerPoint 2007 so you can start using the program right away. This concise guide shows readers how to work with PowerPoint's most useful features and its completely redesigned interface. With clear explanations, step-by-step instructions, lots of illustrations, and plenty of timesaving advice, **PowerPoint 2007 for Starters: The Missing Manual** will quickly teach you to create, save, set up, run, and print a basic bulleted and background slideshow. Learn how to add pictures, sound, video, animated effects, and controls, buttons, and links to your slides. Discover how to incorporate text, spreadsheets, and animations created in other programs. The new PowerPoint is radically different from previous versions. Over the past decade, PowerPoint has grown in complexity, but its once-simple toolbar has been packed with so many features that not even the pros could find them all. For PowerPoint 2007, Microsoft redesigned the user interface completely, adding a tabbed toolbar that makes every feature easy to locate. Unfortunately, Microsoft's documentation is as scant as ever, so even if you find the features you need, you still may not know what to do with them. But with this book, you can breeze through the new user interface and its timesaving features in no time. **PowerPoint 2007 for Starters: The Missing Manual** is the perfect primer for anyone who needs to create effective presentations. **Office 2007: The Missing Manual** Chris Grover, Matthew MacDonald, E. A. Vander Veer, 2007-04-27. Quickly learn the most useful features of Microsoft Office 2007 with our easy-to-read four-in-one guide. This fast-paced book gives you the basics of Word, Excel, PowerPoint, and Access so you can start using the new versions of these major Office applications right away. Unlike every previous version, Office 2007 offers a completely redesigned user interface for each program. Microsoft has replaced the familiar menus with a new tabbed toolbar or ribbon and added other features such as live preview that lets you see exactly what each option will look like in the document before you choose it. This is good news for longtime users who never knew about some amazing Office features because they were hidden among cluttered and outdated menus. Adapting to the new format is going to be a shock, especially if you're a longtime user. That's where **Office 2007: The Missing Manual** comes in. Rather than present a lot of arcane detail, this quick, friendly primer teaches you how to work with the most used Office features with four separate sections covering the four programs. The book offers a walkthrough of Microsoft's redesigned Office user interface before taking you through the basics of creating text documents, spreadsheets, presentations, and databases with clear explanations, step-by-step instructions, lots of illustrations, plenty of friendly advice. It's a great way to master all 4 programs without having to stock up on a shelf load of different books. This book has everything you need to

get you up to speed fast Office 2007 The Missing Manual is truly the book that should have been in the box **Access 2007 for Starters: The Missing Manual** Matthew MacDonald, 2007-01-25 This fast paced book teaches you the basics of Access 2007 so you can start using this popular database program right away You ll learn how to work with Access most useful features to design databases maintain them search for valuable nuggets of information and build attractive forms for quick and easy data entry The new Access is radically different from previous versions but with this book you ll breeze through the new interface and its timesaving features in no time with Clear explanations Step by step instructions Lots of illustrations Larger type Plenty of friendly advice Ideal for small businesses and households Access runs on PCs and manages large stores information including numbers pages of text and pictures everything from a list of family phone numbers to an enormous product catalog Unfortunately each new version of the program crammed in yet another set of features so many that even the pros don t know where to find them all Access 2007 breaks the mold Microsoft changed the user interface by designing a tabbed toolbar that makes features easy to locate One thing that hasn t improved is Microsoft s documentation Even if you find the features you need you still may not know what to do with them Access 2007 for Starters The Missing Manual is the perfect primer for small businesses with no techie to turn to as well as those who want to organize household and office information
