

JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

Microscopy Shinya Inoue,2013-11-11 Ever since television became practical in the early 1950s closed circuit television CCTV in conjunction with the light microscope has provided large screen display raised image contrast and made the images formed by ultraviolet and infrared rays visible With the introduction of large scale integrated circuits in the last decade TV equipment has improved by leaps and bounds as has its application in microscopy With modem CCTV sometimes with the help of digital computers we can distill the image from a scene that appears to be nothing but noise capture fluorescence too dim to be seen visualize structures far below the limit of resolution crisp images hidden in fog measure count and sort objects and record in time lapsed and high speed sequences through the light microscope without great difficulty In fact video is becoming indispensable for harnessing the fullest capacity of the light microscope a capacity that itself is much greater than could have been envisioned just a few years ago The time seemed ripe then to review the basics of video and of microscopy and to examine how the two could best be combined to accomplish these tasks The Marine Biological Laboratory short courses on Analytical and Quantitative Light Microscopy in Biology Medicine and the Materials Sciences and the many inquiries I received on video microscopy supported such an effort and Kirk Jensen of Plenum Press persuaded me of its worth

St. Louis Daily Market Reporter and Merchants Exchange Price Current ,1901 *From GCSEs to EBCs* Great Britain. Parliament. House of Commons. Education Committee,2013 The Government s plans for replacing GCSEs with new English Baccalaureate Certificates in some subjects is trying to do too much too fast Introducing several fundamental changes at the

same time and to a tight timetable will jeopardise the quality of the reforms and may threaten the stability of the wider exam system GCSEs need significant improvements in order to restore public confidence in the exam system but the Government still needs to make the case that the GCSE brand is so discredited that it is beyond repair MPs are also concerned about the impact of the changes on subjects outside the English Baccalaureate where students will be taking GCSEs for some time to come according to the Government's plans The report also questions how well the Government's proposals will serve lower attaining pupils who are often the most disadvantaged There is no evidence that the proposed changes will help to tackle under achievement or narrow the attainment gap between the richest and poorest students any more effectively than GCSEs The Government is also called upon to re think its plans for a Statement of Achievement specifically for lower attaining pupils MPs agree that changes are needed to the way in which exams are run but they raise serious concerns about franchising subjects to exam boards The report is critical of the Government's decision to abolish some GCSEs before publishing the outcomes of the National Curriculum Review and its proposed changes to the school accountability system MPs also note the wide ranging stakeholder opposition to many of the Government's proposals

Assessment of Authentic Performance in School Mathematics Richard A. Lesh, Susan J. Lamon, 2013-04-03 This book is the result of a conference sponsored by the Educational Testing Service and the University of Wisconsin's National Center for Research in Mathematical Sciences Education The purpose of the conference was to facilitate the work of a group of scholars whose interests included the assessment of higher order understandings and processes in foundation level pre high school mathematics Discussions focused on such issues as the purposes of assessment guidelines for producing and scoring real life assessment activities and the meanings of such terms as deeper and higher order understanding cognitive objectives and authentic mathematical activities Assessment was viewed as a critical component of complex dynamic and continually adapting educational systems During the time that the chapters in this book were being written sweeping changes in mathematics education were being initiated in response to powerful recent advances in technology cognitive psychology and mathematics as well as to numerous public demands for educational reform These changes have already resulted in significant reappraisals of what it means to understand mathematics of the nature of mathematics teaching and learning and of the real life situations in which mathematics is useful The challenge was to pursue assessment related initiatives that are systematically valid in the sense that they work to complement and enhance other improvements in the educational system rather than act as an impediment to badly needed curriculum reforms To address these issues most chapters in this book focus on clarifying and articulating the goals of assessment and instruction and they stress the content of assessment above its mode of delivery Computer or portfolio based assessments are interpreted as means to ends not as ends in themselves Assessment is conceived as an ongoing documentation process seamless with instruction whose quality hinges upon its ability to provide complete and appropriate information as needed to inform priorities in instructional decision making This book tackles some of the most complicated issues related to assessment and it offers fresh perspectives from leaders in the field with the hope that the ultimate consumer in the instruction assessment enterprise the individual student will reclaim his or her potential for self directed mathematics learning

What works in early grade literacy instruction Jennae Bulat, Margaret Dubeck, Paula Green, Karon Harden, Catherine Henny, Mónica Mattos, Alison Pflepsen, Ana Robledo, Yasmin Sitabkhan, 2017-02-28 Over the past decade RTI International has pursued the goal of quality inclusive differentiated early grade literacy instruction in nearly 30 early grade reading or early grade literacy programs in low and middle income LMI countries Across our diverse portfolio we have supported Ministries of Education Ministries in diverse contexts in their development and implementation of research based early grade literacy programs and have learned important lessons based on our experience working with Ministries to design develop and implement early grade literacy programs This paper describes the core elements that we have found to improve early grade literacy instruction and learner outcomes the approach to teaching Teach the availability

of quality relevant learner materials Text the effective use of instructional time Time the use of formative assessment to guide instruction Test and provision of instruction in the most effective language Tongue This paper focuses on the acquisition of literacy in alphabetic and alphasyllabic languages in the early primary years most typically academic levels 1 through 3 and the kinds of exposures instruction and support learners need to become fully literate These are the elements of a literacy program that can be taught that should be present in teaching and learning materials and in teacher trainings and that relate specifically to what happens in a classroom Many more factors contribute to literacy acquisition However we focus on the core elements in this paper to delve deeper and facilitate a richer discussion about these components No one size fits all approach to the development and implementation of literacy programs exists the local context and constraints of any implementation can require adaptation and adjustments In many cases the fully diversified approach to early grade literacy instruction described in the classroom scenario has not yet been achieved However we hope that this compilation of lessons learned and best practices achieved through our experiences will help to further the efforts of all to provide high quality effective literacy instruction to all learners particularly those in LMI countries
