The Experience of Authority in Early Modern England Adam Fox, Paul Griffiths, Steve Hindle, 1996-08-16 This collection is concerned with the articulation mediation and reception of authority the preoccupations and aspirations of both governors and governed in early modern England It explores the nature of authority and the cultural and social experiences of all social groups especially insubordinates These essays probe in depth the ways in which young people responded to adults women to men workers to masters and the common sort to their betters Early modern people were not passive receptacles of principles of authority as communicated in for example sermons statutes and legal process They actively contributed to the process of government thereby exposing its strengths weaknesses and ambiguities In discussing these issues the contributors provide

fresh points of entry to a period of significant cultural and socio economic change *The Routledge Companion to Ecstatic Experience in the Ancient World* Diana Stein, Sarah Kielt Costello, Karen Polinger Foster, 2021-12-31 For millennia people have universally engaged in ecstatic experience as an essential element in ritual practice spiritual belief and cultural identification This volume offers the first systematic investigation of its myriad roles and manifestations in the ancient Mediterranean and Near East The twenty nine contributors represent a broad range of scholarly disciplines seeking answers to fundamental questions regarding the patterns and commonalities of this vital aspect of the past How was the experience construed and by what means was it achieved Who was involved Where and when were rites carried out How was it reflected in pictorial arts and written records What was its relation to other components of the sociocultural compact In proposing responses the authors draw upon a wealth of original research in many fields generating new perspectives and thought provoking often surprising conclusions With their abundant cross cultural and cross temporal references the chapters mutually enrich each other and collectively deepen our understanding of ecstatic phenomena thousands of years ago Another noteworthy feature of the book is its illustrative content including commissioned reconstructions of ecstatic scenarios and pairings of works of Bronze Age and modern psychedelic art Scholars students and other readers interested in antiquity comparative religion and the social and cognitive sciences will find much to explore in the fascinating realm of ecstatic experience in the ancient world *Performing Parenthood* Heather Jerónimo, 2024-07-05 *Performing Parenthood* reveals different enactments of motherhood and fatherhood in twentieth and twenty first century Spain showing how the family has adapted or at times failed to do so within the context of Spain's changing socioeconomic reality Through an examination of examples of non normative parenthood in contemporary Spanish literature and film including gay literary father figures subversive physical touch between mother and child fathers who cross dress lesbian maternal community building non biological parenting and disabled bodies the book argues that current conceptualizations of parenthood should be amplified to reflect the various existing identities and performances of motherhoods and fatherhoods Connecting canonical works to recent works the book establishes a unique dialogue that will expand the conversation about the Spanish family beyond the traditional view bringing visibility to alternative family models It argues that parental identities exist on a spectrum enabling many parental figures to disregard heteronormative standards imposed upon the role and allowing them to experience parenthood in meaningful ways Bringing visibility to literary and cinematic examples of alternative Spanish families *Performing Parenthood* provides a glimpse into an evolving society influenced by national and global changes

**Experience and Spirit** Dale M. Schlitt, 2007 Hegel's philosophy of religion is a philosophical theology in which God is conceived as a movement of inclusive divine subjectivity ultimately God inclusive of the world For Hegel this inclusive divine subjectivity took the form of a movement of conceptual thought In an effort to work with Hegel while going beyond him *Experience and Spirit* presents God as a movement of inclusive divine subjectivity however that movement is understood to

be not one of thought but of enriching experience and thus of spirit This argument in favor of a renewed understanding of Hegel s true infinite proceeds in three major steps first a consideration of Hegel s own problematic proposal second the elaboration of a fuller and more contemporary notion of experience and third three constructive phenomenological and philosophical reflections on basic questions in philosophical theology namely the experience of God speaking about God and the notions of evil freedom and mystery In the end Experience and Spirit proposes a philosophy of generosity both human and divine

Experience, Reason, and the Crisis of the Republic Volume 2 Gilbert Null,2021-09-29 Experience Reason and the Crisis of the Republic is a four part realist polemic against nominalism relativism and nihilism in two volumes This second volume s philosophy of language is a noetic modal semantics of languages encrypting intentional contents of experiences and the realist metaphysic of experience and reason applied by its historical and political analysis of the 21st Century crisis of European and American politics and culture It argues that the contemporary crisis is symptomatic of the dominance of nominalist alternatives to the realist premises of Husserl s metaphysic of experience and reason that our experiences of ourselves and others include values and that there are natural rights which unlike civil entitlements are God given It uses the modal logic of experience to prove that God exists and then designs and seeks realist sociologists to implement empirical studies of political and economic consequences of nominalist metaphysical premises since 1912

**The Claims of Experience** Nolan Bennett,2019-08-21 Why have so many figures throughout American history proclaimed their life stories when confronted by great political problems The Claims of Experience provides a new theory for what makes autobiography political throughout the history of the United States and today Across five chapters Nolan Bennett examines the democratic challenges that encouraged a diverse cast of figures to bear their stories Benjamin Franklin amid the revolutionary era Frederick Douglass in the antebellum and abolitionist movements Henry Adams in the Gilded Age and its anxieties of industrial change Emma Goldman among the first Red Scare and state opposition to radical speech and Whittaker Chambers amid the second Red Scare that initiated the anticommunist turn of modern conservatism These historical figures made what Bennett calls a claim of experience By proclaiming their life stories these authors took back authority over their experiences from prevailing political powers and called to new community among their audiences Their claims sought to restore to readers the power to remake and make meaning of their own lives Whereas political theorists and activists have often seen autobiography to be too individualist or a mere documentary source of evidence this theory reveals the democratic power that life narratives have offered those on the margins and in the mainstream If they are successful claims of experience summon new popular authority to surpass what their authors see as the injustices of prevailing American institutions and identity Bennett shows through historical study and theorization how this renewed appreciation for the politics of life writing elevates these authors distinct democratic visions while drawing common themes across them This book offers both a method for understanding the politics of life narrative and a call to anticipate claims of experience as they appear today

**Entrepreneurship as Experience** Michael H. Morris,Christopher G. Pryor,Minet Schindehutte,2012 Do entrepreneurs create ventures or do venture experiences create entrepreneurs The authors of **Entrepreneurship as Experience** propose that the answer is both This important volume examines how individuals experience the creation of a venture as it happens and how that experience determines the types of entrepreneur and venture that ultimately emerge In essence entrepreneurship is an experience consisting of large numbers of key events such as a first sale hiring a first employee losing a big account events that are processed and made sense of by the entrepreneur They produce cognitive emotional and physiological responses which impact decision making and behavior The result is an experience that is purposive diverse uncertain ambiguous and transformative and unique to each individual Here the authors argue that as experience unfolds both entrepreneur and venture are being constructed and emerge in unique forms This experiential view introduces an entirely new lens through which entrepreneurship can be examined **Entrepreneurship as Experience** comprises chapters dedicated to sociological anthropological and psychological research related to human experiencing the volume presents a new frame for understanding the role of emotions and feelings in venture creation and lays out a conceptual framework for understanding how real time experiencing informs the entrepreneurial process New insights are provided regarding how the entrepreneurial mindset and an entrepreneurial identity are formed and why entrepreneurs take on certain traits and develop certain competencies Further the authors put forth new approaches to conducting research on the entrepreneurial experience Students advanced as well as undergraduate and scholars of entrepreneurship innovation strategy and management will find themselves turning often to the ideas and research presented here
