Guarding History: The Islamic Revolutionary Guard Corps and the Memory of the Iran-Iraq War - Preserving the History of the Sacred Defense U. S. Military, Department Of Defense (Dod), Brandon Pinkley, 2018-09-20 This study focuses on the official history collection program by the Islamic Revolutionary Guard Corps IRGC during the Iran Iraq War From the beginning the IRGC understood that this conflict would be a significant event in the life of the new Islamic Republic Senior commanders emphasized the need to record the history of the sacred defense both to memorialize the sacrifices of the guard and to preserve enthusiasm for the revolution with future generations It examines Iran s war history as a form of propaganda that acts as a framework for the IRGC and recounts how the war with Iraq has been remembered retold and utilized Brandon A Pinkley researched and wrote this publication while detailed for nine months in the Joint History Office He reviewed and translated numerous IRGC documents from Persian Farsi for this study and many of these are published here for the first time Iran s Ayatollah Ruhollah Khomeini and Iraq s Saddam Hussein had been consolidating their power for years prior to the Iran Iraq War 1980 88 It was during the first six months of 1979 however that each formally ascended to their national leadership roles as the first Supreme Leader of the Islamic Republic of Iran and the fifth president of Iraq respectively These two men came to symbolize competing and conflicting ideologies and each was vying to emerge as a regional leader seeking to carve out a third way between the patronage of Western capitalism or Eastern communism Domestically both men developed pervasive cults of personality in nations suffering from fragile state institutions they consolidated power by challenging the legitimacy of the previous leadership and maintained their authority by employing military force against political opponents Both Khomeini and Saddam employed their lands histories to craft new national narratives capable of uniting diverse populations Such revisions to pre and post Islamic narratives proved powerful not only for constructing national identities but also for identifying each nation s villains and mobilizing the populace But the history of the Iran Iraq War was much more complicated than the stories of two leading figures or even of two nations It involved competing visions of history conflicting ideologies and theological traditions contending layers of national identities ethnic struggles for autonomy and battles for natural resources transport routes alliances credit arms and regional domination It reignited ancient rivalries and was at the same time a war that could only

have played out in the late Cold War era More importantly it created challenges with clear links to more recent wars most obviously the First Gulf War and established entirely new tensions that will almost certainly plague the region for the foreseeable future particularly regarding the incorporation of Shia militias into national institutions

The Iranian Revolutionary Guard Corps Alma Keshavarz, 2023-09-07 The Iranian Revolutionary Guard Corps IRGC has yet to be directly analysed as a military security complex with significant political influence This book explores Iran s IRGC and Qods Force focussing on its development following the Iranian Revolution and how they have skilfully transformed Iran s defense doctrine to fight an irregular war that challenges the US and the West Chapters detail the birth of the IRGC its political development and influence within Iran its relationship to militias and terrorist organizations such as Hezbollah and involvement in Yemen and Iraq Keshavarz brings first hand knowledge of what government institutions are looking for with respect to the IRGC outlining Iran s hybrid war capabilities that the US and West often misunderstand or miss altogether in order to provide a foreign policy analysis that identifies the challenges of Iran s irregular capabilities and what measures are needed to combat it

Islamic Revolutionary Guard Corps United States Marine Corps Command and S, 2015-12-24 Ayatollah Ruhollah Khomeini formed the Islamic Revolutionary Guard Corps IRGC in 1979 to protect his regime against external and domestic threats The IRGC has opposed US policies in the Middle East since the IRGC s founding in 1979 The IRGC controls the Iranian nuclear weapon program and their quest for nuclear weapons is a long term challenge to US interests Iran s pursuit of nuclear technology and enrichment capabilities also poses a serious challenge to the United States strategic partners Israel Saudi Arabia Egypt Turkey and Pakistan The Revolutionary Guard has sponsored insurgent groups such as Hezbollah Muqtada Sadr s Jaysh al Mahdi and Hamas because the IRGC has a goal to spread a Shi i version of totalitarian Islam This paper is an analysis of the IRGC s nuclear weapon program and the IRGC s sponsorship of militant Islamic groups This paper also assesses possible US government responses multilateral sanctions regional alliances covert action and overt military action The United States must address the impacts of Iran s missile arsenal the concern for Israel s safety the integrity of the Persian Gulf shipping lanes within the Strait of Hormuz and the possibility of Iranian coordination of terrorist attacks around the globe

East turmoil hearing before the Committee on Foreign Affairs House of Representatives One Hundred Fourteenth Congress first session December 2 2015 *Iran's Revolutionary Guard* Steven K. O'Hern, 2012 Argues that the Iranian Revolutionary Guard poses a danger to the economy and well being of the United States citing its previous operations in the Middle East and Asia Guarding History Brandon A. Pinkley, David B. Crist, 2018 This study focuses on the official history collection program by the Islamic Revolutionary Guard Corps IRGC during the Iran Iraq War From the beginning the IRGC understood that this conflict would be a significant event in the life of the new Islamic Republic Senior commanders emphasized the need to record the history of the sacred defense both to memorialize the sacrifices of the guard and to preserve enthusiasm for the revolution with future generations It examines Iran's war history as a form of propaganda that acts as a framework for the IRGC and recounts how the war with Iraq has been remembered retold and utilized From foreword **Iran's National Security Policy** Shahram Chubin, 1994 How dangerous is the Iranian military build up and what are the strategic objectives of the Islamic regime following Operation Desert Storm This book address these important issues in the context of the dangerous perplexing and ever changing regional politics of the Persian Gulf **Pasdaran Incorporated** Jahangir E. Arasli, 2010 Although the Army of the Guardians of the Islamic Revolution also known as the Islamic Revolutionary Guard Corps IRGC was originally an ideologically driven militia it has recently taken an ever more assertive role in virtually every aspect of Iranian society Why and how did the IRGC become such a relevant actor This study traces the historical and political evolution of the IRGC and challenges the conventional wisdom that portrays the Corps as a mere instrument of the state Instead it argues that the rise of the IRGC within the Iranian regime is the result of two negative dynamics in civil military relations First the mismanagement of service rivalries between Iran's Army and the Corps allowed the latter to have excessive control over key state functions including security strategy foreign policy and the defense sector Second once empowered there was nothing to keep the IRGC checked and balanced since Iran suffers from a weak system of civilian control These two perverse dynamics not only shaped the Corps identity as a self contained corporation but it actually propelled it into the center of Iran's politics *IRAN-IRGC's Rising Drone Threat: A Desperate Regime's Ploy to Project Power, Incite War* Ncrl U. S. Representative Office, 2021-12-14 In that the clerical regime in Iran lacks the military capability to build advanced weaponry it has resorted to the production of weapons and equipment that can be used for terrorist and war mongering activities intended to advance its policy of creating crises and fueling terrorism One such weapon in the production and export of which the regime has invested heavily in recent years is a variety of drones or unmanned aerial vehicles UAVs This manuscript offers a review of the most important organs of production use and export of UAVs by the regime and in particular the Islamic Revolutionary Guard Corps IRGC In the first chapter entitled Production of UAVs the history of the IRGC's production of the earliest types of UAVs during the Iran Iraq War is reviewed after which the Quds Air Industries affiliated with the Air Industries Organization in the Ministry of Defense and 7 other related bodies became

involved in such production Next the ways in which equipment is smuggled from abroad and the production of various parts are explained A variety of UAVs used by the IRGC to ignite war and terrorism are then introduced The second chapter entitled Utilization of UAVs offers a brief overview of how the IRGC has used drones historically and outlines the various organs that employ UAVs Among them is the UAV Command under the IRGC Aerospace Force which has various UAV centers across Iran It is the most important entity for training and using UAVs Other military and law enforcement agencies that utilize UAVs are also named in this chapter In the third chapter entitled Using UAVs to incite war and terrorism the utilization of UAVs for the advancement of terrorist policies and regional meddling by the IRGC s Quds Force is discussed The Quds Force Intelligence and Training directorates have dedicated certain sections to the production as well as training and export of UAVs to other countries in the region The IRGC s drone command center was directly involved in the attack on the Saudi Aramco oil refinery The IRGC also continues to export drones to Syria Iraq Lebanon and Yemen UAV parts are flown to these countries in IRGC planes as well as shipped through land crossings and are subsequently assembled in the host countries Local mercenaries from these countries receive training at IRGC Aerospace Force locations in Iran The findings make clear that the reason for the IRGC s focus on the production and use of drones lies in the fundamental military weaknesses of the regime when it comes to modern warfare On the other hand the IRGC has used drones much like its missile program as an instrument to instigate conflict and terrorism in the region in order to keep the clerical dictatorship in power

Iranian Drones Mehran Riazaty, 2023-06-30 In September 2007 the former Chief of the Islamic Revolutionary Guard Corps IRGC Mohammad Aziz Ali Jafari 2007 2019 said We must be flexible in confronting any threat The IRGC s goal is to increase its resilience against enemies of Iran and the Islamic Revolution and strengthen the country s power and ability to deal with threats to prevent the enemy from acting against the country and the regime Jafari stated that he would try to strengthen the IRGC s power in three ways first prepare the IRGC forces for asymmetric warfare second improve the country s intelligence collection power to have better information on enemy s activities in the region third improve country s missiles capabilities Aziz Jafari did not mention strengthening and enhancing the use of drones or unmanned aircraft systems It seems that the IRGC has been working and improving its drone technology covertly since the Iran Iraq War The IRGC has around 90 drones for commercial surveillance tactical and suicide missions The IRGC not only shipped its suicide drones to Russia to be used against Ukraine but also equipped its proxies such as Lebanese Hezbollah Yemeni Houthis the Syrian army and Iraqi Shia Militia groups with all kinds of armed drones The IRGC also has sold armed drones to Venezuela Ethiopia and soon Armenia to use in case of war again with the Republic of Azerbaijan The Iranian drones look primitive and unsophisticated but are still very lethal A small and innovative drone made of wood and foam with a small engine carrying about 5 kg of explosives may seem unimportant and impractical at first glance But effectively using such a simple and primitive drone can impose a high cost on the enemy Iran has decided to enter a drone market focusing on more accurate

longer range drones The use of technologically capable Iranian drones as Iranians advance their drone technology with a more extended range and improved precision can be devastating to ground forces **Iran's Reserve of Last Resort** Marie Donovan, Nicholas Carl, Frederick W. Kagan, 2020 The regime leadership's apparent reluctance to use the IRGC Ground Forces in the most severe internal crackdown since the revolution and even in the largest military operation Iran has conducted beyond its borders since the Iran Iraq War suggests that it sees the IRGC Ground Forces as a reserve of last resort We therefore must consider the scale and capacity of these forces and at what point the regime might have to choose between supporting foreign activities and ensuring its domestic security if protests worsen as external security requirements rise The Critical Threats Project at the American Enterprise Institute has therefore developed an order of battle of the IRGC Ground Forces to help make that assessment The basic order of battle presented in this report gives insight into the capabilities the Iranian leadership apparently values most in the IRGC Ground Forces specifically the ability to organize plan and oversee the conduct of military paramilitary and internal security operations beyond the scale of what the Quds Force can handle outside Iran and what Iran's Law Enforcement Forces LEF and Basij can manage inside the country
