

College Expository Essay

Teenagers constantly look for the place they belong. Isn't it everyone's dream to belong to a certain group of people, to find like-minded individuals and feel accepted? Unfortunately, a vast majority of teenagers take a wrong turn and get lost on their path to acceptance. It is not uncommon for them to join teen gangs feeling like their members understand them, but that is far from the truth. The rise of teenage gangs is a major problem nowadays. But, how serious this problem really is? Consequences of gang membership can scar a person for life in several ways.

Youth, teenage, or juvenile gang is defined as an organized group of adolescents and/or young adults who rely on group intimidation and violence to commit criminal acts with the purpose to gain power, recognition, and control. The rise of teenage gangs is perfectly explained in a study published in the *Journal of Adolescent Health* wherein researchers discovered there were 1,059,000 youth gang members in the United States in 2010. Moreover, on a yearly basis 401,000 juveniles join gangs. The primary reason why this staggering number of gang members goes unnoticed is due to the fact that they may not conform to popular perceptions of teen gang demographics.

Another potential reason why the total number of gangs and gang members keeps increasing is because a great majority of crimes they commit usually goes unreported. As a result, government officials find it difficult to gather exact data about this growing issue. Youth gang members primarily focus on their peers, bully them, and force them to say nothing in order to avoid harsher consequences.

When discussing the issue of youth crime groups, one must wonder how one decides to join them. Risk factors that enhance a teenager's odds of joining a gang include drug or alcohol abuse, negative influences, peer pressure, a strong desire for recognition and belonging, lack of parental supervision, and limited attachment to the community. Most adults do not take this problem seriously enough and, usually, consider it as just another phase teenagers go through. However, the *American Journal of Public Health* published a research showing that gang membership in the adolescence has severe consequences in adulthood, long after a person leaves the gang. Besides higher likelihood of criminal activities, people who were gang members in the adolescence also experienced financial issues and were in poor health in adulthood.

Expository Essay Examples College:

College Writing For Dummies Joe Giampalmi, 2022-08-30 Transform your next college essay into an A masterpiece Taking a 100 level English composition course Just doing your best to get ready for the rigors of college level writing Then it's probably time you picked up *College Writing For Dummies* the single greatest roadmap to writing high quality essays reports and more This book is the ideal companion for any introductory college writing course and tracks the curriculum of a typical English Composition College Writing English 101 or Writing Rhetoric course You'll learn composition techniques style language and grammar tips and discover how to plan write and revise your material You'll also get Ten can't miss resources for improving your college writing Strategies for revising and repairing inadequate essays on your own Techniques to help non native English speakers master the challenging world of English essay writing Full of real world examples lessons in essay structure grammar and everything in between this book is a must read for every incoming college freshman looking for a head start in one of the most important skills you'll need over the next few years Grab a copy of *College Writing For Dummies* today

The Science of Writing C. Michael Levy, Sarah Ransdell, 2013-11-05 Conceived as the successor to Gregg and Steinberg's *Cognitive Processes in Writing* this book takes a multidisciplinary approach to writing research The authors describe their current thinking and data in such a way that readers in psychology English education and linguistics will find it readable and stimulating It should serve as a resource book of theory tools and techniques and applications that should stimulate and guide the field for the next decade The chapters showcase approaches taken by active researchers in eight countries Some of these researchers have published widely in their native language but little of their work has appeared in English language publications

Handbook of Academic Learning Gary D. Phye, 1997-01-08 The *Handbook of Academic Learning* provides a comprehensive resource for educational and cognitive psychologists as well as educators themselves on the mechanisms and processes of academic learning Beginning with general themes that cross subject and age level the book discusses what motivates students to learn and how knowledge can be made personal for better learning and remembering Individual chapters identify proven effective teaching methods for the specific domains of math reading writing science and critical problem solving how students learn within those domains and how learning can be accurately assessed for given domains and age levels The *Handbook* takes a constructivist perspective to academic learning emphasizing the construction of personal knowledge of an academic nature Constructivism within the context of learning theory is viewed as involving an active learner that constructs an academic knowledge base through the development of cognitive strategies and metacognition The book discusses the development of basic literacy skills that provide the foundation for higher order thinking and problem solving Constructivism recognizes the social dimension of classroom learning and emphasizes the motivational elements of self regulation and volition as essential learner characteristics Written by authors who have first hand experience with both theory development and the development of authentic classroom instructional techniques the

Handbook empowers educators to develop implement and field test authentic instructional practices at their school site The book provides a review of the literature theory research and skill techniques for effective teaching and learning Identifies effective teaching with specific techniques Covers elementary school through high school Discusses teaching methods for all main subject areas reading writing math science and critical thinking Identifies how students learn to learn Reviews theory research techniques and assessment Contains field tested examples for the educational professional at the school site Provides a resource for staff development **Expository Writing** William S. Dye,1926 *Resources in Education* ,1999-10

The American Essay in the American Century Ned Stuckey-French,2011-05-31 In modern culture the essay is often considered an old fashioned unoriginal form of literary styling The word essay brings to mind the uninspired five paragraph theme taught in schools around the country or the antiquated Edwardian meanderings of English gentlemen rattling on about art and old books These connotations exist despite the fact that Americans have been reading and enjoying personal essays in popular magazines for decades engaging with a multitude of ideas through this short form means of expression To defend the essay that misunderstood staple of first year composition courses Ned Stuckey French has written The American Essay in the American Century This book uncovers the buried history of the American personal essay and reveals how it played a significant role in twentieth century cultural history In the early 1900s writers and critics debated the death of the essay claiming it was too traditional to survive the era s growing commercialism labeling it a bastion of British upper class conventions Yet in that period the essay blossomed into a cultural force as a new group of writers composed essays that responded to the concerns of America s expanding cosmopolitan readership These essays would spark the magazine revolution giving a fresh voice to the ascendant middle class of the young century With extensive research and a cultural context Stuckey French describes the many reasons essays grew in appeal and importance for Americans He also explores the rise of E B White considered by many the greatest American essayist of the first half of the twentieth century whose prowess was overshadowed by his success in other fields of writing White s work introduced a new voice creating an American essay that melded seriousness and political resolve with humor and self deprecation This book is one of the first to consider and reflect on the contributions of E B White to the personal essay tradition and American culture more generally The American Essay in the American Century is a compelling highly readable book that illuminates the history of a secretly beloved literary genre A work that will appeal to fiction readers scholars and students alike this book offers fundamental insight into modern American literary history and the intersections of literature culture and class through the personal essay This thoroughly researched volume dismisses once and for all the death of the essay proving that the essay will remain relevant for a very long time to come **The Young Adult's Guide to Flawless Writing** Lindsey Carman,2016-02-25 The most important skill you can have in any field or subject is the ability to express yourself with eloquence and confidence in writing The tools and rules needed are simple and easy to remember Learn everything you need to know to write engaging
