Boyd, 2015-09-01 Despite Canada's enduring image as a natural paradise every year thousands of Canadians become ill or die prematurely as a result of exposure to environmental hazards Canadians understand that their health is inextricably linked to the health of the environment and are deeply concerned about the impacts of toxic substances on themselves and their children In Cleaner Greener Healthier David R Boyd sets out to remedy Canada's environmental health problems He begins by assessing the environmental burden of disease identifies its unequal distribution along racial and socio economic lines and estimates the associated economic costs He then compares Canadian environmental laws and policies with those in the United States Australia and the European Union delivering a provocative diagnosis of the root causes of Canada's second rate standards Finally drawing on strategies that protect citizens in other countries Boyd prescribes legal remedies that will enable Canada to catch up with the world's environmental leaders while delivering substantial health and economic benefits **Beyond Energy** Jacopo Maria Pepe, 2017-11-22 Jacopo Maria Pepe examines the rapid development of non energy transport infrastructure in the broader Eurasian space By doing so the author considers the ongoing structural transformation of the Eurasian continent against the backdrop of deepening commercial interconnectivity in Eurasia into broader areas of trade supported by the rapid development of rail connectivity He frames this process in a long wave historical analysis and considers in detail the geopolitical geo economic and theoretical implications of deepening physical connectivity for the relationships among China Russia Central Asia and the European Union **Eurasian Regionalisms and Russian Foreign Policy** Mikhail A. Molchanov, 2016-03-03 Bridging foreign policy analysis and international political economy this volume offers a new look at the problem of agency in comparative regional integration studies It examines evolving regional integration projects in the Eurasian space defined as the former Soviet Union countries and China and the impact that Russian foreign policy has had on integration in the region Mikhail Molchanov argues that new regionalism in Eurasia should be seen as a reactive response to contemporary challenges that these developing states face in the era of globalization Regional integration in this part of the world treads the unknown waters and may not simply repeat the early steps in the evolution of the European Union The question of a hegemonic leadership in particular as exercised by a country that spearheads regional integration efforts animates much of the discussion offered in the book Moreover Eurasian regionalisms are plural phenomena because of complementary and competing projects that

engage the same or partially overlapping groups of countries By combining foreign policy studies with an examination of the international political economy of regionalism in Eurasia the author furthers our understanding of new regionalism both theoretically and empirically *Missing Dollars*, 2024-07-29 Illicit financial flows IFFs associated with commodity trade erode the tax base of resource rich developing countries Efforts to curb IFFs and reform taxation stumble over enhanced North South tensions but remain crucial to helping poorer countries mobilise domestic resources for development The 17th volume of International Development Policy examines this key part of the wider agenda to restore trust in the multilateral system calling for a more transparent effective and equitable trade and tax framework Based on a six year multidisciplinary research project encompassing academic institutions in commodity exporting and trading countries its 24 authors offer a mix of theoretical and empirical contributions and discuss findings of macro and micro level studies The book sheds new light on issues such as addressing push and pull factors through domestic and international policy measures the preferences of key stakeholders for short term fixes versus long term policy reforms and prescriptive approaches and other options to address tax base erosion in resource rich developing countries Insurance Law in Mexico Yves Hayaux-du-Tilly, 2020-08-19 Derived from the renowned multi volume International Encyclopaedia of Laws this book provides valuable practical insight into both public supervisory legislation concerning insurance and private insurance contract law in Mexico An informative general introduction surveying the legal political financial and commercial background and surroundings of insurance provides a sound foundation for the specific detail that follows The book covers all essential aspects of the law and regulation governing insurance policies and instruments Its detailed exposition includes examination of the form of the insurance company and its reserves and investments the insurance contract the legal aspects of the various branches of property and liability insurance motor vehicle insurance schemes life insurance health insurance and workmen s compensation schemes reinsurance co insurance and pooling taxation of insurance and risk management and prevention Succinct yet eminently practical the book will be a valuable resource for lawyers handling cases affecting Mexico It will be of practical utility to those both in public service and private practice called on to develop and to apply the laws of insurance and of special interest as a contribution to the much needed harmonization of insurance law **Global Business** Yongsun Paik, Jong-Wook Kwon, Dong Chen, 2017-05-08 This textbook is designed to help students understand the key issues of global business by connecting theory with reality Divided into three parts it covers critical issues of international business introducing readers to topics they will connect with and discussing core concepts With a user friendly pedagogy and a host of helpful visuals the authors offer a practitioner s perspective on global business knowledge examining familiar theory on trade direct investment and political environment alongside fresh topics like geopolitical conflicts emerging markets and sustainability Over sixty case studies are included to illustrate the magnitude and complexity of global business involving different stakeholders Undergraduate students looking for an introduction to international business and graduate students looking to apply their
