Hall, 2025-06-30 Physicians want to care for patients not spend their time documenting in an electronic medical record Physicians are always complaining about the amount of time they spend documenting patient care in support of medical billing through an evaluation and management coding system E M New guidelines were created to lessen the time a physician provider spends on documentation as many of the mandatory elements are no longer a requirement for calculating a code level Previously an E M evaluation and management note required documentation of history exam and medical decision making with required elements in each component to support a level for payment If an element was missing the level of service was not supported therefore the code was lowered resulting in a lower reimbursement for the physician provider The new guidelines eliminated the requirement of History and Exam as part of the calculation of a code level Yes an appropriate history and exam are required this supports good patient care but when it comes to reimbursement they are no longer part of the picture The overall system is not difficult if time is taken to understand the elements and how they are applied in the documentation Documentation is a word game always has been the authors focus is to show what words to use to lessen the time but still convey the complexity of the patient's condition and how the physician provider determines a treatment plan which includes the risk to the patient to satisfy the Coding guidelines initiated by Medicare and American Medical Association This book evaluates the new guidelines and brings them into perspective so physicians providers coders can easily understand how to document and calculate the level of service for reimbursement This is not a cumbersome book or complicated but straight to the point The main goal of the book is to educate physicians nurses and coders on what documentation is really required and what has just become habit over the last 30 years *Mastering LLM Applications with LangChain and Hugging Face* Hunaidkhan Pathan, Nayankumar Gajjar, 2024-09-21 DESCRIPTION The book is all about the basics of NLP generative AI and their specific component LLM In this book we have provided conceptual knowledge about different terminologies and concepts of NLP and NLG with practical hands on This comprehensive book offers a deep dive

into the world of NLP and LLMs Starting with the fundamentals of Python programming and code editors the book gradually introduces NLP concepts including text preprocessing word embeddings and transformer architectures You will explore the architecture and capabilities of popular models like GPT 3 and BERT The book also covers practical aspects of LLM usage for RAG applications using frameworks like LangChain and Hugging Face and deploying them in real world applications With a focus on both theoretical knowledge and hands on experience this book is ideal for anyone looking to master the art of NLP and LLMs The book also contains AWS Cloud deployment which will help readers step into the world of cloud computing As the book contains both theoretical and practical approaches it will help the readers to gain confidence in the deployment of LLMs for any use cases as well as get acquainted with the required generative AI knowledge to crack the interviews

KEY FEATURES Covers Python basics NLP concepts and terminologies including LLM and RAG concepts Provides exposure to LangChain Hugging Face ecosystem and chatbot creation using custom data Guides on integrating chatbots with real time applications and deploying them on AWS Cloud

WHAT YOU WILL LEARN Basics of Python which contains Python concepts installation and code editors Foundation of NLP and generative AI concepts and different terminologies being used in NLP and generative AI domain LLMs and their importance in the cutting edge of AI Creating chatbots using custom data using open source LLMs without spending a single penny Integration of chatbots with real world applications like Telegram

WHO THIS BOOK IS FOR This book is ideal for beginners and freshers entering the AI or ML field as well as those at an intermediate level looking to deepen their understanding of generative AI LLMs and cloud deployment

The Top Books of the Year Face To Documentation Sample The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels enthralling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the fascinating narratives that have captivated audiences this year. Face To Documentation Sample : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, entrancing readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
