## **Factory English Edition:**

**The Marrano Factory** António José Saraiva, 2001-10-01 The Marrano Factory argues that the Portuguese Inquisition's stated intention of extirpating heresies and purifying Portuguese Catholicism was a monumental hoax; the true purpose of the Holy Office was the fabrication rather than the destruction of Judaizers. The caste or race of the New Christians was in reality synonymous with the Portuguese mercantile middle class which conservative Portuguese society would not tolerate. Most or nearly all of the New Christian Inquisitorial victims, some 40,000 between 1540 and 1765, were unremarkable Catholics who often had minimal Jewish ancestry. The Portuguese Inquisitorial procedure was not designed to distinguish between guilt and innocence but considered any defendant once categorized a New Christian a Judaizer. First published in Portuguese in 1969, this is the only work by António José Saraiva available in English and the only single volume history devoted primarily to the working of the Portuguese Inquisition, a most lucid and compact survey. It presents Saraiva's 1975 revised history and analysis of the Portuguese Inquisition, a 1971 interview with Professor Israel Salvator R. Vah, Saraiva's dialogues and R. Vah's reply of the same year, both scholars' letters to the *Diário de Lisboa*. Footnotes and introductions have been expanded. A brief survey of the Portuguese Inquisition in Goa, India, as well as a list of Portuguese kings and Inquisitors general and an up-to-date bibliography have been added.

**Pavlov's Physiology Factory** Daniel P. Todes, 2003-04-29 Russian physiologist and Nobel Prize winner Ivan Pavlov is most famous for his development of the concept of the conditional reflex and the classic experiment in which he trained a dog to salivate at the sound of a bell. In *Pavlov's Physiology Factory: Experiment, Interpretation, Laboratory Enterprise*, Daniel P. Todes explores Pavlov's early work in digestive physiology through the structures and practices of his landmark laboratory, the physiology department of the Imperial Institute for Experimental Medicine. In *Lectures on the Work of the Main Digestive Glands*, for which Pavlov won the Nobel Prize in 1904, the scientist frequently referred to the experiments of his coworkers and stated that his conclusions reflected the deed of the entire laboratory. This novel claim caused the prize committee some consternation: Was he alone deserving of the prize? Examining the fascinating content of Pavlov's scientific notes and correspondence, unpublished memoirs and laboratory publications, *Pavlov's Physiology Factory* explores the importance of Pavlov's directorship of what the author calls a physiology factory and illuminates its relationship to Pavlov's Nobel Prize-winning work and the research on conditional reflexes that followed it. Todes looks at Pavlov's performance in his various roles as laboratory manager, experimentalist, entrepreneur, and scientific visionary. He discusses changes wrought by government and commercial interests in science and sheds light on the pathways of scientific development in Russia, making clear Pavlov's personal achievements while also examining his style of laboratory management. *Pavlov's Physiology Factory* thus addresses issues of importance to historians of science and scientists today: big versus small science, the dynamics of experiment and interpretation, and the development of research cultures.

The Factory Hiroko Oyamada, 2019-10-29 The English language debut of Hiroko Oyamada, one of the most powerfully strange

young voices in Japan The English language debut of one of Japan's most exciting new writers The Factory follows three workers at a sprawling industrial factory Each worker focuses intently on the specific task they've been assigned one shreds paper one proofreads documents and another studies the moss growing all over the expansive grounds But their lives slowly become governed by their work days take on a strange logic and momentum and little by little the margins of reality seem to be dissolving Where does the factory end and the rest of the world begin What's going on with the strange animals here And after a while it could be weeks or years the three workers struggle to answer the most basic question What am I doing here With hints of Kafka and unexpected moments of creeping humor The Factory casts a vivid and sometimes surreal portrait of the absurdity and meaninglessness of the modern workplace **Factory Accounts** Emile Garcke, John Manger Fells, 1893
