Jacobs, 2015-12-16 Over the past forty years state provincial and local governments in the United States and Canada have provided foreign automakers with approximately 4 80 billion in incentives in order to lure light vehicles assembly plants to their areas This has included tax abatements infrastructure construction land giveaways job training programs and other subsidies As of early 2015 ten foreign vehicle makers operated 20 light vehicles in developed North America Despite the fact that all ten of these automakers have pursued a similar pattern first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America each has followed its own specific historical development path and has created its own unique growth trajectory This book provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and or Canada through early 2015 In addition it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the United States and Canada This includes the first foreign automaker to build its cars in the United States De Dion Bouton of France in July 1900 the early 20th Century endeavors of Fiat Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI It is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant Its findings should also prove informative to urban and regional planning political science

sociology economics labor and international development scholars and students in North America and worldwide Asian Competitors: Marketing For Competitiveness In The Age Of Digital Consumers Philip Kotler, Hermanwan Kartajaya, Den Huan Hooi, 2019-03-15 Today's dynamic and uncertain environment has contributed to the changing nature of markets. In order for companies to keep up, they will need to embark on new wave marketing to ride the wave of opportunities provided by the changes in the environment such as the digital revolution. This is critical all over the world but none more so than in Asia. Asia is not only the world's biggest market but also the fastest growing. It is therefore essential for marketers to understand the dynamics of Asian companies and what they have to offer to the wider world. This book analyzes competitive companies from 18 Asian countries that have successfully practiced new wave marketing and in so doing provide invaluable lessons that others may find useful. Comprehensive case studies are used not only to describe how some of Asia's best companies compete but also to analyze the concepts of new wave marketing; their actions are based on this. This book is unique in its depth and breadth of cases from companies in the ASEAN region to North East Asia including Mongolia and SAARC. The authors of this book, Professor Philip Kotler (arguably the Father of Modern Marketing), Hermawan Kartajaya from Indonesia and Hooi Den Huan from Singapore, are all experts in their field and have previously produced other bestsellers. This book, with its focus on real life examples of competitive Asian companies in the age of digitalization, complements the principles and theoretical frameworks of new wave marketing that are detailed in its sister book. Together, these books provide a comprehensive picture of the changing Asian marketing landscape.

**Business Periodicals Index**, 2004 **The Korean Automotive Industry, Volume 2** A.J. Jacobs, 2023-08-24 This volume chronicles the maturation of the South Korean auto industry and its native automakers from the 1997 Asian Crisis to 2019. After examining the context for domestic vehicle production in South Korea, the author presents multiple case studies for all five Korean automakers: General Motors Korea, Daewoo Motors, Kia, Hyundai, Ssangyong, and Renault Samsung. This includes coverage of Hyundai and Kia's foreign plants in North America, Europe, India, China, and Emerging Asia. The book closes by assessing the five to ten year future outlooks for Korean automakers at home and abroad. This important work will prove informative to scholars of business management, automotive history, international development, Asian studies, and public administration.

*The Role of Corporate Sustainability in Asian Development* Gilbert Lenssen, Jay Hyuk Rhee, Fabien Martinez, 2017-05-11 This book examines the challenges faced by seven multinational companies: Intel, Lenovo, Samsung Electronics, ZTE, BMW, Hyundai Motor Company, Mahindra, and Mahindra, in their endeavour to contribute to the economic, environmental, and social development of Asia. The lessons learned from the examination of these business practices may directly contribute to an increase in the practice of sustainable management and may, as such, contribute to the positive economic, environmental, and social impact of companies in this region. The cases are highly relevant for management theoreticians seeking to deepen our understanding of corporate sustainability in an area where scholars, practitioners, and policy makers can expect new questions, problems, and challenges in the years ahead. The book is also of

high interest to policy review agencies policy makers and welfare economists seeking to support the development of a comprehensive sustainability framework for managing social and environmental issues in the context of Asia
