Reasoning from Faith Justin Sands, 2018-01-16 An enlightening commentary on Merold Westphal's intricate thought and provokes new questions concerning the original project of his diverse philosophy B Keith Putt editor of The Future of Continental Philosophy of Religion Merold Westphal is considered to be one of the preeminent Continental philosophers of religion His articulation of faith as the task of a lifetime has become a touchstone in contemporary debates concerning faith's relationship to reason As Justin Sands explores his philosophy he illuminates how Westphal's concept of faith reveals the pastoral theological intent behind his thinking Sands sees Westphal's philosophy as a powerful articulation of Protestant theology but one that is in ecumenical dialogue with questions concerning apologetics and faith's relationship to ethics and responsibility a more Catholic point of view By bringing out these features in Westphal's philosophy Sands intends to find core philosophical methodologies as well as a passable bridge for philosophers to cross over into theological discourses An engaging and illuminating work William Desmond David Cook Chair in Philosophy Villanova University Professor of Philosophy Institute of Philosophy KU Leuven Belgium A long overdue critical homage to one of the bravest religious thinkers of our generation Richard Kearney Charles B Seelig Chair of Philosophy at Boston College

For the Life of the World (Theology for the Life of the World) Miroslav Volf, Matthew Croasmun, 2019-01-22 Christianity Today 2020 Book Award Award of Merit Theology Ethics Outreach 2020 Recommended Resource of the Year Theology and Biblical Studies The question of

what makes life worth living is more vital now than ever In today s pluralistic postsecular world universal values are dismissed as mere matters of private opinion and the question of what constitutes flourishing life for ourselves our neighbors and the planet as a whole is neglected in our universities our churches and our culture at large Although we increasingly have technology to do almost anything we have little sense of what is truly worth accomplishing In this provocative new contribution to public theology world renowned theologian Miroslav Volf named America s New Public Intellectual by Scot McKnight on his Jesus Creed blog and Matthew Croasmun explain that the intellectual tools needed to rescue us from our present malaise and meet our new cultural challenge are the tools of theology A renewal of theology is crucial to help us articulate compelling visions of the good life find our way through the maze of contested questions of value and answer the fundamental question of what makes life worth living

Principles of Christian Theology John Macquarrie, 1966 While remaining faithful to the classic traditions of Christian theology this volume presents the major themes of Christian thought in contemporary terms The author s attempt to face the challenges of modern philosophy his response to the growing ecumenicism of the Roman Catholic Church and an awareness of the wider dialogue between Christianity and other religions in the world today are among the important issues discussed Back cover

Fundamentals of the Faith Peter Kreeft, 2009-10-27 Kreeft considers all the fundamental elements of Christianity and Catholicism explaining defending and showing their relevance to our life and the world s yearnings Here is a book to help you understand your faith more fully and to explain it to others more winningly Like every religion this faith has three aspects corresponding to the three parts of the soul and filling the innate needs of all three parts Kreeft uses these three divisions as the basic outline for his Christian apologetics First every religion has some beliefs whether expressed in creeds or not something for the intellect to know Second every religion has some duty or deed some practice of program some moral or ethical code something for the will to choose Finally every religion has some liturgy some worship some church something for the body and the concrete imagination and the aesthetic sense to work at Creed Code and Cult Words Works and Worship are a most useful way of outlining any religious faith including the Catholic Faith of Christians These essays were written for Catholics by a Catholic But I believe that nearly everything I say here will be found by the orthodox Biblical Protestant reader to be his faith as well That solid and substantial core that C S Lewis called mere Christianity Peter Kreeft

Faith and Logic Basil Mitchell, 2013-07-18 When this book was originally published in 1957 there had been lively debates on the air and in the press about the bearing of modern philosophy upon Christianity but there had been relatively little sustained discussion of the subject This book of essays was the product of a small group of Oxford philosophers and theologians who had met and talked informally for some years before writing it It is an attempt to discuss with care and candour some of the problems raised for Christian belief by contemporary analytical philosophy In asking the questions raised this book makes articulate the perplexities of many intelligent people both believers and unbelievers The contributors concentrate on the way such

concepts as God Revelation the Soul Grace are actually used rather than asserting or denying some very general theory of meaning

Monotheism and Faith in God Ian G. Wallis, 2020-12-24 After offering a brief overview of the role of faith within Judaism Christianity and Islam an interdisciplinary analysis of faith belief belief systems and the act of believing is undertaken The debate over the nature of doctrine between George Lindbeck and Alister McGrath brings into focus four ways in which beliefs can be employed expressive interpretative formative and referential relational An analysis of monotheistic belief ensues which demonstrates how it can function meaningfully in each of these modes including the last where insights from phenomenology and relational ontology as well as philosophical theology favour a participatory approach in which God is encountered not as an object of investigation but as that transcendent Other whose worship is the fulfilment of human being The study concludes by highlighting convergences between the nature of faith presented in the initial scriptural overview and that developed throughout the rest of the study

Tracing the Contours of Faith Wayne Fehr, 2024-09-18 This book is addressed to Christian believers who are feeling the ambiguities and challenges of a life of faith Many of them may be uncertain about the meaning of the faith which they profess The familiar words that they hear in sermons and prayers seem at times to belong to a reality far removed from the actual world they live in They need to discover a meaning of their faith that they can relate to their own life experience and their general knowledge of the world This book is a collection of brief essays written in response to specific questions about the Christian faith's vision of reality The questions addressed here have arisen out of the experience of ordinary Christians trying to make sense of their faith Some are asking about particular Church words Some are expressing difficulties in believing Some are probing the paradoxes of Christian existence The author responds as a professional theologian and priest writing in a non technical way for fellow believers His purpose is to make the best insights of sound theology available to them to minister to their faith life Although many of the essays are limited in scope there is a coherent understanding of the Christian faith that underlies all of them Each essay is simply articulating part of that understanding in response to a specific question

Faith seeking understanding Nico Vorster, Frederik van Niekerk, 2023-03-01 How did it all begin How do we even start to engage the differences between creation narratives in the Christian Bible and modern scientific theory The authors of this book explore hermeneutic approaches and developments in biblical studies to set the scene for a religious approach This approach is open to the possibility that a literalist approach to Scripture is in fact the most unjustifiable reading of the Bible This may profoundly affect how we view God the cosmos and even ourselves To be able to read the Bible from the perspective of an open present and future paves the way for suppressed uncertainties to be liberated This paves the way for humankind to freely question all things without being enslaved by imposed religious dogma This is not to say that religion has served its purpose but it is far from it With the rise of technological advancements come other social and anthropological problems not to mention the challenge we face on a global scale with climate change et cetera Just as we dare to peek over the edge of a

future without religion the authors bring us back to the fundamental teachings of faith traditions Christianity in particular They remind us that the solutions to these challenges are to be found in us becoming better humans Becoming better humans brings us back into the arena of faith traditions When technology may lead to social disconnection and narcissism religion calls for love of self and neighbour Where greed inspired advancements threaten the future of our planet religion teaches us to be in relationship with our environment and to be custodians of it
