## **Foreign Bodies English Edition:**

**Foreign Bodies** Madeleine Dobie, 2001 Building on the critical foundations established by Edward Said in *Orientalism* *Foreign Bodies* examines the relationship between the Orientalist tradition in French art and literature and France's colonial history. It focuses on a central dimension of this exchange: the prevalent figure of the oriental woman and the interplay of race and gender in both domestic and colonial history. It also offers a genealogy of contemporary French attitudes to Islamic culture in which beliefs about sexuality and gender relations continue to occupy a privileged place. The author examines the extent to which the rhetorical status and political implications of Orientalism register the changing circumstances of French colonial activity, tracing the convergence or divergence of colonial practice and the literary record. She also argues against the tendency in both historical and theoretical writing on colonialism to divide center from margins, metropolitan from colonial. Instead, she shows how colonial products and ideas permeated the domestic culture and shaped its evolution. Finally, the book proposes that the feminine figures of Orientalist texts are often interwoven with representations of language and more specifically with representations of language as an alien and resistant code, something other than the transparent medium of ideas. It suggests that in promoting awareness that language is not simply the neutral medium of thought and experience, these veiled figures of language function as foreign bodies, creating disruptive effects within an economy orchestrated toward the production of knowledge of the other. However, the book also argues against the view espoused by certain critics that the self-reflexivity of Orientalist writing fully counteracts its polarizing political effects, arguing instead for a process of double reading that acknowledges both the geopolitical power encoded within Orientalist representation and the ways in which specific texts resist this power.

*A Practical Treatise on Foreign Bodies in the Air-passages* Samuel David Gross, 1854

*Foreign Bodies and the Body Politic* Jonathan Gil Harris, 1998-05-07 Jonathan Gil Harris examines the origins of modern discourses of social pathology in Elizabethan and Jacobean medical and political writing. Plays, pamphlets, and political treatises of this period display an increasingly xenophobic tendency to attribute England's ills to foreign bodies such as Jews, Catholics, and witches, as well as to treat their allegedly poisonous features for the health of the body politic. Harris argues that this tendency resonates with two of the distinctive paradigms of Paracelsus's pharmacy, which also includes the notion that poison has a medicinal power. The emergence of these paradigms in early modern English political thought signals a decisive shift from Galenic humoral tradition towards twentieth-century politico-medical discourses of infection and containment, which like their early modern predecessors make mysterious the domestic origins of social conflict and the operations of political authority.

*The Routledge Handbook of Translation and Memory* Sharon Deane-Cox, Anneleen Spiessens, 2022-05-29 The Routledge Handbook of Translation and Memory serves as a timely and unique resource for the current boom in thinking around translation and memory. The Handbook offers a comprehensive overview of a contemporary and as yet unconsolidated research landscape with a four-section structure which encompasses both current debate and

future trajectories Twenty four chapters written by leading and emerging international scholars provide a cross sectional snapshot of the diverse angles of approach and case studies that have thus far driven research into translation and memory A valuable far reaching range of theoretical empirical reflective comparative and archival approaches are brought to bear on translational sites of memory and mnemonic sites of translation through the examination of topics such as traumatic postcolonial cultural literary and translator memory This Handbook is key reading for advanced undergraduates postgraduates and researchers in translation studies memory studies and related areas

**Waiting for Godot - Samuel Beckett, New Edition** Harold Bloom, 2009 Presents a series of critical essays discussing the structure themes and subject matter of Samuel Beckett's *Waiting for Godot*

**The Conference of the Tongues** Theo Hermans, 2014-06-03 The Conference of the Tongues offers a series of startling reflections on fundamental questions of translation It throws new light on familiar problems and opens up some radically different avenues of thought It engages with value conflicts in translation and the social accountability of translators and turns the old issue of equivalence inside out Drawing on a wealth of contemporary and historical examples the book teases out the translator's subject position in translations makes notions of intertextuality and irony serviceable for translation studies tries to think translation without transformation and uses a controversial sociological model to cast a cold eye on the entire world of translating This is a highly interdisciplinary study that remains aware of the importance of theoretical paradigms as it brings concepts from international law social systems theory and even theology to bear on translation Self reference is a recurrent theme The book invites us to read translations for what they can tell us about translating and about translators own perceptions of their role The argument throughout is for more self reflexive translation studies

**Mechanical Ocular Trauma** Hua Yan, 2016-10-31 This book provides state of the art information for ophthalmologists and other clinicians facing tough cases helping them to make the most appropriate decision concerning the management of patients who have suffered mechanical ocular trauma The discussion of mechanical ocular trauma addresses various parts of the eye each chapter discusses a certain part of the eye supplemented by illustrative sample cases Though the latest consensus is provided for each topic or case different opinions on controversial topics will also be discussed in detail Pearls of advice at the end of each chapter highlight its main points Topics covered include Traumatic cataract and the timing of surgery and IOL implantation Traumatic hypotony Traumatic glaucoma Timing of vitrectomy after primary repair Use of silicone oil in traumatic eyes Intraocular Foreign Bodies Traumatic endophthalmitis and much more As a topic based clinical reference work on mechanical ocular trauma bringing together consensus and controversies the book offers useful and attractive information for ophthalmologists

**Embodied Politics in Visual Autobiography** Sarah Brophy, Janice Hladki, 2014-11-05 From reality television to film performance and video art autobiography is everywhere in today's image obsessed age With contributions by both artists and scholars Embodied Politics in Visual Autobiography is a unique examination of visual autobiography's involvement in the global cultural politics

of health disability and the body This provocative collection looks at images of selfhood and embodiment in a variety of media and with a particular focus on bodily identities and practices that challenge the norm a pregnant man in cyberspace a fat activist performance troupe indigenous artists intervening in museums transnational selves who connect disability to war and many more The chapters in *Embodied Politics in Visual Autobiography* reflect several different theoretical approaches but share a common concern with the ways in which visual culture can generate resistance critique and creative interventions With contributions that investigate digital media installation art graphic memoir performance film reality television photography and video art the collection offers a wide ranging critical account of what is clearly becoming one of the most important issues in contemporary culture

, **Smoking and Health Bulletin** ,1971 *A History of the Medicines We Take* Anthony C Cartwright,N Anthony Armstrong,2020-04-30 *A History of the Medicines We Take* gives a lively account of the development of medicines from traces of herbs found with the remains of Neanderthal man to prescriptions written on clay tablets from Mesopotamia in the third millennium BC to pure drugs extracted from plants in the nineteenth century to the latest biotechnology antibody products The first ten chapters of the book in PART ONE give an account of the development of the active drugs from herbs used in early medicine many of which are still in use to the synthetic chemical drugs and modern biotechnology products The remaining eight chapters in PART TWO tell the story of the developments in the preparations that patients take and their inventors such as Christopher Wren who gave the first intravenous injection in 1656 and William Brockedon who invented the tablet in 1843 The book traces the changes in patterns of prescribing from simple dosage forms such as liquid mixtures pills ointments lotions poultices powders for treating wounds inhalations eye drops enemas pessaries and suppositories mentioned in the Egyptian Ebers papyrus of 1550 BCE to the complex tablets injections and inhalers in current use Today nearly three quarters of medicines dispensed to patients are tablets and capsules A typical pharmacy now dispenses about as many prescriptions in a working day as a mid nineteenth century chemist did in a whole year *Pacific Medical Journal* ,1906

**Theatre Translation in Performance** Silvia Bigliazzi,Paola Ambrosi,Peter Kofler,2013-04-02 This volume focuses on the highly debated topic of theatrical translation one brought on by a renewed interest in the idea of performance and translation as a cooperative effort on the part of the translator the director and the actors Exploring the role and function of the translator as co subject of the performance it addresses current issues concerning the role of the translator for the stage as opposed to the one for the editorial market within a multifarious cultural context The current debate has shown a growing tendency to downplay and challenge the notion of translational accuracy in favor of a recreational and post dramatic attitude underlying the role of the director and playwright instead This book discusses the delicate balance between translating and directing from an intercultural semiotic aesthetic and interlingual perspective taking a critical stance on approaches that belittle translation for the theatre or equate it to an editorial practice focused on literalness Chapters emphasize the idea of dramatic translation as a particular and extremely challenging type of

performance while consistently exploring its various textual intertextual intertranslational contextual cultural and intercultural facets The notion of performance is applied to textual interpretation as performance interlingual versus intersemiotic performance and inter cultural performance in the adaptation of translated texts for the stage providing a wide ranging discussion from an international group of contributors directors and translators Edinburgh Medical Journal ,1884 Journal of the American Medical Association ,1905 Found in Translation Laura Rademaker,2018-04-30 Found in Translation is a rich account of language and shifting cross cultural relations on a Christian mission in northern Australia during the mid twentieth century It explores how translation shaped interactions between missionaries and the Anindilyakwa speaking people of the Groote Eylandt archipelago and how each group used language to influence evade or engage with the other in a series of selective mistranslations In particular this work traces the Angurugu mission from its establishment by the Church Missionary Society in 1943 through Australia s era of assimilation policy in the 1950s and 1960s to the introduction of a self determination policy and bilingual education in 1973 While translation has typically been an instrument of colonization this book shows that the ambiguities it creates have given Indigenous people opportunities to reinterpret colonization s position in their lives Laura Rademaker combines oral history interviews with careful archival research and innovative interdisciplinary findings to present a fresh cross cultural perspective on Angurugu mission life Exploring spoken language and sound the translation of Christian scripture and songs the imposition of English literacy and Aboriginal singing traditions she reveals the complexities of the encounters between the missionaries and Aboriginal people in a subtle and sophisticated analysis Rademaker uses language as a lens delving into issues of identity and the competition to name own and control In its efforts to shape the Anindilyakwa people s beliefs the Church Missionary Society utilized language both by teaching English and by translating Biblical texts into the native tongue Yet missionaries relied heavily on Anindilyakwa interpreters whose varied translation styles and choices resulted in an unforeseen Indigenous impact on how the mission s messages were received From Groote Eylandt and the peculiarities of the Australian settler colonial context Found in Translation broadens its scope to cast light on themes common throughout Pacific mission history such as assimilation policies cultural exchanges and the phenomenon of colonization itself This book will appeal to Indigenous studies scholars across the Pacific as well as scholars of Australian history religion linguistics anthropology and missiology *National Library of Medicine Current Catalog* National Library of Medicine (U.S.),1971 First multi year cumulation covers six years 1965 70 **A Manual of Percussion and Auscultation of the Physical Diagnosis of Diseases of the Lungs and Heart, and of Thoracic Aneurism** Austin Flint,2024-03-13 Reprint of the original first published in 1876 **A Manual of venereal diseases** Everett M.
