The Science Teacher ,2004      **TalentEd** Jerry D. Flack,1993-07-15 With the vision that children can learn well and achieve excellence if provided with opportunity and challenge Flack offers exciting ideas and strategies to identify and develop the unique talents found in each one These strategies employ the library media specialist and teacher as allies in the talent development process and they promote the concept of basic skills beyond literacy and numeracy into goal setting time management library research creative and critical thinking and problem solving The activities are designed to promote literacy integrated learning diversity and academic excellence Grades K 12      Resources in Education ,1997      *Mobile Media Learning* et al.,Christopher Holden,2015 This book is an inspirational message about what is possible and practical in the name of learning through mobile media We present stories from a diverse set of educators a microcosm of the landscape of mobile media learning Each author has found a way to create something new and beautiful in their own world And though their results are exceptional their surroundings are not Most are not experts in high technology nor highly equipped They get as far as they do by using what is at hand in part by making use of accessible free and open source software To provide both a deeper look into how these projects operate and a practical resource for those who want to join in this book addresses most of these tools individually as well Our detailed down to earth accounts will not only be legible to newcomers but refreshingly forthright to those anxious to better understand educational experiments connecting learning and mobile media Back cover

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1969      *Helping Teachers Develop* Sara Bubb,2005-09-20 *Helping Teachers Develop* is a positive uplifting encouraging publication very good value for money It is the sort of publication we need in the profession and it is well worth being part of every head teacher or staff development tutor s collection of really useful books I have to confess even before I had finished reading it for review I was using *Helping Teachers Develop* with my trainee teachers Peter Stammers in the *Journal of In service Education* The book explores ways teachers at all levels can mentor others and improve their careers It also contains guidance on ways to cope with having your lessons observed and how to make constructive comments as an observer Michael Shaw *Times Educational Supplement* This is another excellent and accessible practice guide from someone who unusually understands both the classroom teacher from long years of practice and the theory The chapter on observation of teachers should be read by every headteacher deputy and teacher who engages in monitoring classroom practice Note a few inspectors would benefit too It s one to read and then refer to on a regular basis if you work in schools or PGCE departments Tim Brighouse Chief Adviser for London Schools *Helping teachers develop* whether they re trainees newly or recently qualified in their first three ten or twenty years and whether they re superb or struggling is vital for the profession for the millions of children who ll learn more as a result Schools have to take greater responsibility for staff s continuing professional development CPD but there is little real help for the people who develop teachers The best teachers will be expected to mentor trainee and newly qualified teachers NQTs

and share good practice with all colleagues Drawing directly on real life experience and the latest research this book will help people in a mentoring coaching advisory or management role to o develop teachers through understanding adult learning and the CPD cycle o meet needs from the range of professional development activities o carry out observations and give oral and written feedback in a range of situations o help and monitor planning and other parts of the job o help teachers develop their careers Using examples from current practice Sara will take you though every stage of CPD from what professional development is to how you can support and monitor staff in your own school There are photocopiable materials for you to use The guidance in this book will be essential for mentors induction tutors CPD staff development coordinators people with advanced skills or excellent teacher status and all those with a leadership and management role in schools or local authorities Sara Bubb is the UK s leading induction expert and has vast expertise in the CPD field She runs many courses for different levels of school staff assesses trainee and advanced skills teachers and is the new teacher expert for the Times Educational Supplement Sara has been seconded from the Institute of Education to the DfES as the consultant for the Chartered London Teacher initiative She is the co author with Peter Earley of Leading and Managing Continuing Professional Development and Managing Teacher Workload

**Unfair** Adam Benforado,2016-06-14 NEW YORK TIMES BESTSELLER Unfair succinctly and persuasively recounts cutting edge research testifying to the faulty and inaccurate procedures that underpin virtually all aspects of our criminal justice system illustrating many with case studies The Boston Globe A child is gunned down by a police officer an investigator ignores critical clues in a case an innocent man confesses to a crime he did not commit a jury acquits a killer The evidence is all around us Our system of justice is fundamentally broken But it s not for the reasons we tend to think as law professor Adam Benforado argues in this eye opening galvanizing book Even if the system operated exactly as it was designed to we would still end up with wrongful convictions trampled rights and unequal treatment This is because the roots of injustice lie not inside the dark hearts of racist police officers or dishonest prosecutors but within the minds of each and every one of us This is difficult to accept Our nation is founded on the idea that the law is

impartial that legal cases are won or lost on the basis of evidence careful reasoning and nuanced argument But they may in fact turn on the camera angle of a defendant's taped confession the number of photos in a mug shot book or a simple word choice during a cross examination In *Unfair* Benforado shines a light on this troubling new field of research showing for example that people with certain facial features receive longer sentences and that judges are far more likely to grant parole first thing in the morning Over the last two decades psychologists and neuroscientists have uncovered many cognitive forces that operate beyond our conscious awareness Until we address these hidden biases head on Benforado argues the social inequality we see now will only widen as powerful players and institutions find ways to exploit the weaknesses of our legal system Weaving together historical examples scientific studies and compelling court cases from the border collie put on trial in Kentucky to the five teenagers who falsely confessed in the Central Park Jogger case Benforado shows how our judicial processes fail to uphold our values and protect society's weakest members With clarity and passion he lays out the scope of the legal system's dysfunction and proposes a wealth of practical reforms that could prevent injustice and help us achieve true fairness and equality before the law
