Form A Frustum With Sheet Metal Fabrication:

Materials, Design and Manufacturing for Sustainable Environment Elango Natarajan,S. Vinodh,V. Rajkumar,2022-09-28 The book presents select proceedings of the International Conference on Materials Design and Manufacturing ICMDMSE 2022 The book covers recent trends in design and manufacturing practices relating to sustainability Various topics covered in this book include materials design for sustainability material characterization tribology finite element methods FEM computational fluid dynamics in designing materials manufacturing techniques inclined to sustainability additive manufacturing energy Industry 4 0 MEMS green manufacturing and optimization techniques This book will be useful for researchers and professionals working in various fields of mechanical engineering

Experiments and Simulations in Advanced Manufacturing Panagiotis Kyratsis,J. Paulo Davim,2021-04-29 This book presents the latest advances in manufacturing from both the experimental and simulation point of view It covers most aspects of manufacturing engineering i e theoretical analytical computational and experimental studies Experimental studies on manufacturing processes require funds time and expensive facilities while numerical simulations and mathematical models can improve the efficiency of using the research results It also provides high level of prediction accuracy and the basis for novel research directions
