Education, Productivity, and Inequality John B. Knight, R. H. Sabot, 1990 The relationship between resources devoted to education and the economy of developing nations is explored The research seeks to understand if and how investment in education translates into increased economic growth and labor productivity Additionally the function of education in reducing various dimensions of economic inequality is examined The two East African nations that are the study's focus Kenya and Tanzania have similar levels of income but they differ markedly in their public policy toward the provision of secondary education and thus in the educational attainment of the labor force The research findings provide strong backing for the human capital paradigm educational expansion is shown to raise labor productivity The results also show that making education less scarce diminishes inequality in access to education and in income Numerous figures and tables of data appear throughout this volume a list of 170 references is included DB

Youth Citizenship and the Politics of Belonging Sharlene Swartz, Madeleine Arnot, 2014-10-20 Around the world today young people are being called upon to develop civic competence and carry the burden of forging a political future in the midst of impoverishment exclusion and inequality In societies that have experienced civil war military occupation mass immigration of displaced people or social conflict the conditions under which young people attempt to build their citizenship are not well understood Youth Citizenship and the Politics of Belonging contributes to the field of youth citizenship studies by purposively exploring the experiences of young adults in the context of

the formation of nationhood and global citizenship It explores from the perspective of various countries the role of social context and schooling in creating young citizens This collection offers a unique opportunity to hear the voices of young people themselves who as learner citizens within educational institutions poor communities and refugee camps amongst other settings expose the tensions between social inclusion and marginalization The book considers young people s contemporary social movements their activism and their sense of belonging It looks at understandings of national political and religious identities youth rights and various forms of state community and sexual violence as well as strategic coping strategies their reinterpretations of civic messages and the ways in which anger resistance and disengagement put youth in a difficult position This book was originally published as a special issue of Comparative Education *Mau Mau's Children* David P. Sandgren, 2012-08-06 In 1963 David P Sandgren went to Kenya to teach in a small rural school for boys where he remained for the next four years These were heady times for Kenyans as the nation gained its independence approved a new constitution and held its first elections In the school where Sandgren taught the sons of Gikuyu farmers rose to the challenges of this post colonial era and in time entered Kenyan society as adults joining Kenya s first generation of post colonial elites In *Mau Mau s Children* Sandgren has reconnects with these former students Drawing on more than one hundred interviews he provides readers with a collective biography of the lives of Kenya s first postcolonial elite stretching from their 1940s childhood to the peak of their careers in the 1990s Through these interviews *Mau Mau s Children* shows the trauma of growing up during the Mau Mau Rebellion the nature of nationalism in Kenya the new generational conflicts arising and the significance of education and Gikuyu ethnicity on his students path to success *Science Research and Education in Africa* Alain L. Fymat, Joachim Kapalanga, 2017-03-07 For various economic and political reasons many African countries lag behind the rest of the industrialised world in scientific and medical research and development However the presence of intellectual islands scattered across the continent gives hope that this is only a transient situation on the cusp of undergoing a profound and beneficial change For this reason the Society for the Advancement of Science in Africa was established to catalyse and contribute to this needed evolution Its mission is to contribute to Africa s economic advancement and sustainability through science research education and innovation This book provides a selection of papers from the Advancement of Science in Africa s third annual conference The conference was held under the overarching theme of science research and education in Africa with several important sub themes including but not limited to improving health research and disease surveillance education epidemic diseases with high mortality promoting women s interest in science careers fostering youth development with science education The collection illustrates how although the chapter contributors come from various countries and universities representing their own academic research they all share a common interest in advancing science research and education in Africa *Kenya A "Spy" Guide Volume 1 Strategic Information and Developments* IBP USA, 2018-02-21 *Kenya A Spy Guide Strategic Information and Developments* *Correlates of*
