You can change the sequence of the semesters per the needs or interests of your student. Materials for each semester are independent of one another to allow flexibility. Made in Heaven Science shamelessly steals from God's creation yet refuses to give God the glory. Engineers and inventors have long examined God's creation to understand and copy complex, proven mechanics of design in the science known as biomimicry. Much of this inspiration is increasingly drawn from amazing aspects of nature, including insects, to plants, to man, in search of wisdom and insight. We are surrounded daily by scientific advancements that have become everyday items simply because man is copying from God's incredible creation without acknowledging the Creator. *Champions of Invention*. The great minds of the past are still with us today in many ways. Individuals who explored the natural world hundreds and thousands of years ago have given us a treasure of knowledge in all the sciences. In this exciting series from educator author John Hudson Tiner, short biographies of the world's most gifted thinkers will inspire the leaders of tomorrow. Study the life of the forgotten inventor Joseph Henry, whose exploration of electricity set the standard for later innovators. Find out how a personal tragedy paved the way for Samuel F. B. Morse to put aside his painting and develop the telegraph. These valuable learning guides will give students accurate accounts of lives from the halls of science and explain what those scientists believed about the world around them. *Discovery of Design*.
