

## My Summer

"Ring, ring, ring!" I jumped for joy at the sound of the school bell on the last day of school. I couldn't wait for school to be out because I knew I was going to have an amazing summer!

First of all, I went to Arizona to visit my Aunt Cindy. For two weeks, I had fun with my favorite aunt. When she saw me, she said, "How's my favorite niece?" I replied, "I'm your only niece!" We had a great time shopping, swimming, and baking cookies. It's always great to visit my Aunt Cindy.

After I got back home, I stayed up late many nights and watched a lot of movies. I like scary movies, but my mom always says, "Scary movies keep you up at night!" She won't let me watch them during the school year. However, she lets me watch some scary movies in the summer since I don't have to get up for school. Staying up late is awesome!

Finally, I did my favorite activity of all. I worked on my crafty scrapbooking projects. There were boxes of pictures just waiting for me to turn them into cute scrapbook pages. I missed my friends from school, so I enjoyed creating colorful pages to help me remember all the fun we had. I made some fantastic scrapbook pages!

I like school, but I love summer! It's really the best time of the year. I wish it would never end!

Well-Trained Mind Susan Wise Bauer, Jessie Wise, 2016-08-09 Is your child getting lost in the system becoming bored losing  
his or her natural eagerness to learn If so it may be time to take charge of your child s education by doing it yourself The  
Well Trained Mind will instruct you step by step on how to give your child an academically rigorous comprehensive education  
from preschool through high school one that will train him or her to read to think to understand to be well rounded and  
curious about learning Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education  
called the trivium which organizes learning around the maturing capacity of the child s mind and comprises three stages the  
elementary school grammar stage when the building blocks of information are absorbed through memorization and rules the  
middle school logic stage in which the student begins to think more analytically and the high school rhetoric stage where the  
student learns to write and speak with force and originality Using this theory as your model you ll be able to instruct your  
child whether full time or as a supplement to classroom education in all levels of reading writing history geography  
mathematics science foreign languages rhetoric logic art and music regardless of your own aptitude in those subjects  
Thousands of parents and teachers have already used the detailed book lists and methods described in The Well Trained  
Mind to create a truly superior education for the children in their care This extensively revised fourth edition contains

completely updated curricula and book lists links to an entirely new set of online resources new material on teaching children with learning challenges cutting edge math and sciences recommendations answers to common questions about home education and advice on practical matters such as standardized testing working with your local school board designing a high school program preparing transcripts and applying to colleges You do have control over what and how your child learns The Well Trained Mind will give you the tools you ll need to teach your child with confidence and success      **Collateral Damage** Sharon L. Nichols,David C. Berliner,2007-03-01 Drawing on their extensive research Nichols and Berliner document and categorize the ways that high stakes testing threatens the purposes and ideals of the American education system For more than a decade the debate over high stakes testing has dominated the field of education This passionate and provocative book provides a fresh perspective on the issue and powerful ammunition for opponents of high stakes tests Their analysis is grounded in the application of Campbell s Law which posits that the greater the social consequences associated with a quantitative indicator such as test scores the more likely it is that the indicator itself will become corrupted and the more likely it is that the use of the indicator will corrupt the social processes it was intended to monitor Nichols and Berliner illustrate both aspects of this corruption showing how the pressures of high stakes testing erode the validity of test scores and distort the integrity of the education system Their analysis provides a coherent and comprehensive intellectual framework for the wide ranging arguments against high stakes testing while putting a compelling human face on the data marshalled in support of those arguments      *Handbook of Formative Assessment in the Disciplines* Heidi L. Andrade,Randy E. Bennett,Gregory J. Cizek,2019-05-14 The Handbook of Formative Assessment in the Disciplines meaningfully addresses current developments in the field offering a unique and timely focus on domain dependency Building from an updated definition of formative assessment the book covers the integration of measurement principles into practice the operationalization of formative assessment within specific domains beyond generic strategies evolving research directions including student involvement and self regulation and new approaches to the challenges of incorporating formative assessment training into pre service and in service educator training As supporters of large scale testing programs increasingly consider the potential of formative assessments to improve teaching and learning this handbook advances the subject through novel frameworks intersections of theory research and practice and attention to discernible disciplines Written for instructors graduate students researchers and policymakers each chapter provides expert perspectives on the procedures and evaluations that enable teachers to adapt teaching and learning in process toward student achievement
