## France La Faillite:

**The Commercial Code of France** France, 1814 , The Death of the French Atlantic Alan Forrest, 2020-01-31 The Death of the French Atlantic examines the sudden and irreversible decline of France's Atlantic empire in the Age of Revolution and shows how three major forces undermined the country's competitive position as an Atlantic commercial power. The first was war especially war at sea against France's most consistent enemy and commercial rival in the eighteenth century Great Britain. A series of colonial wars from the Seven Years War and the War of American Independence to the Revolutionary and Napoleonic Wars did much to drive France out of the North Atlantic. The second was anti slavery and the rise of a new moral conscience which challenged the right of Europeans to own slaves or to sacrifice the freedom of others to pursue national economic advantage. The third was the French Revolution itself which not only raised French hopes of achieving the Rights of Man for its own citizens but also sowed the seeds of insurrection in the slave societies of the New World leading to the loss of Saint Domingue and the creation of the first black republic in Haiti at the beginning of the nineteenth century. This proved critical to the economy of the French Caribbean driving both colons and slaves from Saint Domingue to seek shelter across the Atlantic world and leaving a bitter legacy in the French Caribbean. It has also created an uneasy memory of the slave trade in French ports like Nantes La Rochelle and Bordeaux and has left an indelible mark on race relations in France today.

Whitfield** Rudolf Thum, 1889 *The Return of Alsace to France, 1918-1939* Alison Carroll, 2018-05-30 In 1918 the end of the First World War triggered the return of Alsace and Lorraine to France after almost fifty years of annexation into the German Empire. Enthusiastic crowds in Paris and Alsace celebrated the return of the lost provinces but return proved far more difficult than expected. Over the following two decades politicians administrators industrialists cultural elites and others grappled with the question of how to make the region French again. Differences of opinion emerged and reintegration rapidly descended into a multi faceted struggle as voices at the Parisian centre the Alsatian periphery and outside France's borders

offered their views on how to introduce French institutions and systems into its lost borderland Throughout these discussions the border itself shaped the process of reintegration by generating contact and tensions between populations on the two sides of the boundary line and by shaping expectations of what it meant to be French and Alsatian Borderland is the first comprehensive account of the return of Alsace to France which treats the border as a driver of change It draws upon national regional and local archives to follow the difficult process of Alsace s reintegration into French society culture political and economic systems and legislative and administrative institutions It connects the microhistory of the region with the macro levels of national policy international relations and transnational networks and with the cross border flows of ideas goods people and cultural products that shaped daily life in Alsace as its population grappled with the meaning of return to France In revealing the multiple voices who contributed to the region s reintegration it underlines the ways in which regional populations and cross border interactions have forged modern nations
