Revolutionaries to Race Leaders Cedric Johnson, The Black Power movement represented a key turning point in American politics Disenchanted by the hollow progress of federal desegregation during the 1960s many black citizens and leaders across the United States demanded meaningful self determination The popular movement they created was marked by a vigorous artistic renaissance militant political action and fierce ideological debate Exploring the major political and intellectual currents from the Black Power era to the present Cedric Johnson reveals how black political life gradually conformed to liberal democratic capitalism and how the movement's most radical aims the rejection of white aesthetic standards redefinition of black identity solidarity with the Third World and anticapitalist revolution were gradually eclipsed by more moderate aspirations Although Black Power activists transformed the face of American government Johnson contends that the evolution of the movement as a form of ethnic politics restricted the struggle for social justice to the world of formal politics Johnson offers a compelling and theoretically sophisticated critique of the rhetoric and strategies that emerged in this period Drawing on extensive archival research he reinterprets the place of key intellectual figures such as Harold Cruse and Amiri Baraka and influential organizations including the African Liberation Support Committee the National Black Political Assembly and the National Black Independent Political Party in postsegregation black politics while at the same time identifying the contradictions of Black Power radicalism itself Documenting the historical retreat from radical democratic struggle Revolutionaries to Race Leaders ultimately calls for the renewal of popular struggle and class conscious politics Cedric Johnson is assistant professor of political science at Hobart and William Smith Colleges

**Nationalism and Youth in Theatre and Performance** Victoria Pettersen Lantz, Angela Sweigart-Gallagher, 2014-07-11 Nationalism and Youth in Theatre and Performance explores how children and young people fit into national political theatre and moreover how youth enact interrogative patriotic and or antagonistic performances as they develop their own relationship with nationhood Children are often seen as excluded from public discourse or political action However this idea of exclusion is false both because adults place children at the center of political debates with the rhetoric of future

generations and because children actively insert themselves into public discourse Whether performing a national anthem for visiting heads of state creating a school play about a country's birth or marching in protest of a change in public policy young people use theatre and performance as a means of publicly staking a claim in national politics directly engaging with ideas of nationalism around the world This collection explores the issues of how children fit into national discourse on international stages The authors focus on national performances by for with youth and examine a wide range of performances from across the globe from parades and protests to devised and traditional theatre Nationalism and Youth in Theatre and Performance rethinks how national performance is defined and offers previously unexplored historical and theoretical discussions of political youth performance

**Evidence of Being** Darius Bost, 2018-12-21 Evidence of Being opens on a grim scene Washington DC's gay black community in the 1980s ravaged by AIDS the crack epidemic and a series of unsolved murders seemingly abandoned by the government and mainstream culture Yet in this darkest of moments a new vision of community and hope managed to emerge Darius Bost's account of the media poetry and performance of this time and place reveals a stunning confluence of activism and the arts In Washington and New York during the 1980s and 90s gay black men banded together using creative expression as a tool to challenge the widespread views that marked them as unworthy of grief They created art that enriched and reimagined their lives in the face of pain and neglect while at the same time forging a path toward bold new modes of existence At once a corrective to the predominantly white male accounts of the AIDS crisis and an openhearted depiction of the possibilities of black gay life Evidence of Being above all insists on the primacy of community over loneliness and hope over despair

**The New Scapegoats: Colored-On-Black Racism** Kwame Okoampa-Ahoofe, Jr., 2005-03-29 The New Scapegoats Colored On Black Racism debunks the widespread and seemingly indelible myth of Africa's blind and facile complicity in the massive uprootment and enslavement of its own in the Americas between the Fifteenth and Nineteenth centuries The author demonstrates the Transatlantic Slave Trade to have been the primary product of Western Europe's industrial revolution Praise for Okoampa Ahoofe's Work Kwame Okoampa Ahoofe's analyses always expand the frontiers of our knowledge He challenges what is taken for granted and in the process pushes us to reflect critically on important issues of the day In his latest work The New Scapegoats Colored On Black Racism Okoampa Ahoofe revisits old assumptions about the Africana world and takes to task how these tired assumptions are being re-cycled as the new paradigm for understanding Africa Karl Botchway political scientist New York City College of Technology of The City University of New York author of Understanding Development Intervention in Northern Ghana

*Holding the Line* George White Jr., 2005-11-04 The rivalry between the United States and the Soviet Union intensified as Dwight D Eisenhower entered the White House However the burning question for the vast majority of the world's population was not whether they would join the Free World or the Soviet bloc but whether they could achieve meaningful self-determination Nowhere did the answer to that question loom larger than in Africa The Eisenhower administration's confrontation with Africa demonstrates the

significance of race in the creation and execution of American foreign policy In this new work historian George White Jr explores the ways in which Eisenhower diplomacy influenced by America s racialized fantasies fears and desires turned the Cold War into a global sanctuary for the rehabilitation of Whiteness In turn American statesmen and bureaucrats justified the undermining of democracy and freedom by stuffing the multi faceted realities of African aspirations and Western privileges into the straitjacket of a bi polar worldview Using as its foundation American relations with Ethiopia Ghana South Africa and the Congo Holding the Line demonstrates the power of race to warp perception and to severely limit the parameters and possibilities of human engagement Holding the Line provides a fresh perspective on 1950s era U S foreign relations that remain salient in American diplomacy today This is a book that will be of interest to students of American diplomatic history Critical Race and Whiteness studies American studies and international relations **The Michael Eric Dyson Reader**
