

SESSION 1: WINDS AND GLOBAL CIRCULATION

KEY CONCEPTS:

In this session we will look at:

- Primary, secondary and tertiary circulation. We will also look at some of the types of primary, secondary and tertiary circulation.
- Understanding how temperature affects air pressure and how these factors causes movement of air then your understanding of Climate and weather is made much easier

X-PLANATION

GENERAL INTRODUCTION TO CLIMATE AND WEATHER:

In the three presentations of climate and weather there are many overlaps regarding the different sections e.g. we will make reference to mountain and valley breezes in tertiary circulation and microclimatology. Learning these sections in this manner is very important as the answer to questions could incorporate three or more different sections

PRIMARY, SECONDARY AND TERTIARY CIRCULATION:

Primary circulation is the major way in which heat energy is transferred to different parts of the earth's surface on a global scale. It includes both horizontal and vertical movements e.g. the tri-cellular arrangement.

Secondary circulations are circulations that occur within primary circulations. They occur on a smaller scale, covering smaller areas and lasting from a few days to a few weeks e.g. monsoons and cyclones.

Tertiary circulations are more localised circulations than secondary circulations and sometimes could last for only a few hours e.g. land and sea breezes and berg winds.

HIGH PRESSURE AND LOW PRESSURE SYSTEMS:

Geomorphology B. W. Sparks, 1976

The Evolution of Geomorphology Harley Jesse Walker, 1989

Geomorphology, 1972

Introduction to Geomorphology Alistair F. Pitty, 2020-05-11

The study of landforms is becoming increasingly scientific This book first published in 1971 attempts to do justice to the work done in the last few decades but strives to avoid a too uncritical acceptance of contemporary trends The author first examines the fundamental characteristics and basic postulates of geomorphology He then seeks to define the systematic stages through which the study of the landforms of a given area might proceed Examples are drawn from a wide geographical range with emphasis on presenting examples of actual observations and measurements The final section presents concise descriptions of simple and inexpensive methods of acquiring field data in landform study

Global Geomorphology Michael A. (Department of Geography Summerfield, 2006-09

Adopting the Track of Expression: An Mental Symphony within **Geomophology Summary Learnxtra**

In some sort of eaten by monitors and the ceaseless chatter of quick transmission, the melodic splendor and mental symphony produced by the published term usually diminish into the backdrop, eclipsed by the persistent noise and interruptions that permeate our lives. But, set within the pages of **Geomophology Summary Learnxtra** a wonderful literary prize full of fresh thoughts, lies an immersive symphony waiting to be embraced. Crafted by an elegant composer of language, that fascinating masterpiece conducts readers on a psychological trip, skillfully unraveling the concealed songs and profound impact resonating within each cautiously crafted phrase. Within the depths with this poignant assessment, we will investigate the book is key harmonies, analyze its enthralling publishing model, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
