Georges Seurat 111 Colour Plates:

Georges Seurat Maria Tsaneva, Blago Kirov, 2015-01-09 An important Post Impressionist French painter Georges Seurat moved away from the apparent spontaneity and rapidity of Impressionism and developed a structured more monumental art to depict modern urban life For several of his large compositions Seurat painted many small studies He is chiefly remembered as the pioneer of the Neo Impressionist technique commonly known as Divisionism or Pointillism an approach associated with a softly flickering surface of small dots or strokes of color His innovations derived from new quasi scientific theories about color and expression yet the graceful beauty of his work is explained by the influence of very different sources His success quickly propelled him to the forefront of the Parisian avant garde His triumph was short lived as after barely a decade of mature work he died at the age of only 31 Beautiful Thing Robert Clay, 2009 On taste Design evolution Composition Colour Drawing communication and expression Light and Color R.
