Course Description Anatomy & Physiology is an exciting upper level science course that focuses on the structure and function of the human body. The course begins with an exploration of the cells and tissues that form the structure of the body, and how those structures make up the body systems. A&P explores how the body systems work together to maintain homeostasis, and how the body systems function in both healthy and diseased states. Heart, muscle function, and nerve function will also be covered.	Expected Materials Students will be required to bring a 3 ring binder or folder, a pencil, and notebook to class every day. There is also a fee amount for copying and programming in A&P, so a set of colored pencils is highly recommended.
