

Replacing a SATA Hard Drive on a Hog iPC Console

Before beginning, follow these setup instructions:

- Disconnect power to the console.
- Disconnect all monitors, external devices (keyboards, widgets, etc) and remove the main console portion from the roadcase.

Opening the Hog iPC Console:

1. Use a 4mm hex key to remove the 4 silver screws holding the front panel in place (encoder wheels and fader caps need not be removed).

2. Gently lift the front panel PCB (circuit board) up as you would a car hood (there are connections at the top of this board that can be damaged if you pull straight up). Please note this circuit board is not hinged to the console.
