Informed is best Amy Brown, 2019 From the moment you share the news that you are pregnant or have a new baby it feels like everyone becomes an expert Did you see that headline Did you hear that story on TV Have you heard the latest about what they say is best In a world overflowing with information telling you what is best for you and your baby making decisions can feel overwhelming Who do you trust Who is telling the truth And how do you know if what they are saying is right for you How By becoming your own expert in sorting the media spin and politics from the actual facts and data This isn t a book that is going to tell you which decisions to make or that there is ever one right answer It is not going to tell you that the same thing is always best for everyone Instead this is a guide to help you evaluate

information and evidence to decide what is right for you your body and your baby In three main parts it will firstly open your eyes to how information is shared in the media and how this can affect our thinking and decision making Next it will help you spot who is funding leading and promoting research and how this can affect the content of what is shared Finally it will talk you through reading understanding and evaluating evidence for yourself across topics in pregnancy birth and caring for babies You ll learn how to spot weaknesses in methods used how to determine the real risk for you and your baby and how wider context and other factors can influence what research means for you Information is power Making your own decisions that are right for you is empowering Informed is best *Creating Life-Long Learners* Todd Stanley,2015-07-30 Wanted for the global workforce thinkers and those who can teach them Where K 12 instruction once centered on content and memorization today s educators want most of all to teach their students to think critically and perceptively What better way than with project based learning PBL Author Todd Stanley provides a teacher friendly step by step approach to implementing PBL focusing on the 21st century three R s readiness responsibility and relevance Educators will be prepared to put this practical methodology to work right away as they learn how to Use project and classroom management skills to create a positive productive learning environment Develop curriculum around ten different project types Link projects with today s standards Teach students how to effectively collaborate and bring out the best in each other Readers will find an abundance of ideas and clear guidance along with new strategies for instilling the skills students need for tomorrow s workforce If you are looking for a way to produce higher level thinkers you really need to read this book It is a recipe for successful life long learners Tamara Daugherty Teacher Lakeville Elementary School Student lead project based learning fuses today s classroom with the demands of the fast paced future Students need to be able to interact and problem solve not just with each other but also within the community and with technology This book is a guide for helping educators make that jump with their instruction Debra K Las Teacher Rochest Public Schools *Research Approaches in Urban Agriculture and Community Contexts* Levon T. Esters,Amie Patchen,Isha DeCoito,Neil Knobloch,2021-07-27 This book will fill a void in the literature around research and program design and the impact of such experiences on learning outcomes within urban agricultural contexts In particular this book will cover topics such as STEM integration science learning student engagement learning gardens and curriculum design *Handbook on Teaching and Learning in Political Science and International Relations* John Ishiyama,William J. Miller,Eszter Simon,2015-02-27 With a focus on providing concrete teaching strategies for scholars the Handbook on Teaching and Learning in Political Science and International Relations blends both theory and practice in an accessible and clear manner In an effort to help faculty **The Parent's Guide to Talking About Sex** Janet Rosenzweig,2015-04-21 If your kids aren t learning about sex from you what are they learning about sex and who is teaching them Having the talk with your child does not have to be a terrifying and awkward event Armed with Dr Janet Rosenzweig s groundbreaking book you may find you never need to have the talk Dr Rosenzweig illustrates how you can help protect your

children from sexual abuse trauma and bullying through your everyday interactions with them She walks you through the steps you can take to combine your own family's values with age appropriate information for children at all stages of development And you'll learn how to do so in a way that will improve the trust and communication between you and your child Dr Rosenzweig applies her decades of experience in child abuse prevention sexuality education and family services to help you identify the real threats to your children's safety and to protect them from becoming victims of sexual misinformation or exploitation From choosing a child's first daycare to meeting the multimedia challenges of adolescence The Parent's Guide to Talking About Sex will coach you to raise sexually safe and healthy sons and daughters Introducing Teachers and Administrators to the NGSS Eric Brunzell, Deb M. Kneser, Kevin J. Niemi, 2014-05-01 If you're charged with helping educators achieve the vision of the new science standards this is the professional development resource you need This book is chock full of activities and useful advice for guiding teachers and administrators as they put the standards into practice in the classroom Written by three experts in professional development for science teachers Introducing Teachers and Administrators to the NGSS Introduces the vocabulary structure and conceptual shifts of the NGSS Explores the three dimensions of the Framework science and engineering practices crosscutting concepts and disciplinary core ideas and how they're integrated in the NGSS Provides classroom case studies of instructional approaches for students challenged by traditional science teaching Covers curricular decisions involving course mapping designing essential questions and performance assessments and using the NGSS to plan units of instruction Examines the connections between the NGSS and the Common Core State Standards Offers advice for getting past common professional development sticking points and finding further resources Given the widespread changes in today's education landscape teachers and administrators may feel overwhelmed by the prospect of putting the new standards into practice If you're a science specialist curriculum coordinator or instructional coach who provides professional development you will find this collection immensely helpful for heading off initiative fatigue whether in an individual school or throughout a district
