long slow decline of the late twentieth century Much of the study will be defined by the dominating issue of working class gambling and the bitter opposition to both it and greyhound racing although the attractions of this American Night Out will also be examined

Working-Class Utopias Robert M. Fogelson, 2022-10-18 One of the nation's foremost urban historians traces the history of cooperative housing in New York City from the 1920s through the 1970s As World War II ended and Americans turned their attention to problems at home union leaders and other prominent New Yorkers came to believe that cooperative housing would solve the city's century old problem of providing decent housing at a reasonable cost for working class families *Working Class Utopias* tells the story of this ambitious movement from the construction of the Amalgamated Houses after World War I to the building of Co op City the world's largest housing cooperative four decades later Robert Fogelson brings to life a tumultuous era in the life of New York drawing on a wealth of archival materials such as community newspapers legal records and personal and institutional papers In the early 1950s a consortium of labor unions founded the United Housing Foundation under the visionary leadership of Abraham E Kazan who was supported by Nelson A Rockefeller Robert F Wagner Jr and Robert Moses With the help of the state which provided below market rate mortgages and the city which granted tax abatements Kazan's group built large scale cooperatives in every borough except Staten Island Then came Co op City built in the Bronx in the 1960s as a model for other cities but plagued by unforeseen fiscal problems culminating in the longest and costliest rent strike in American history Co op City survived but the United Housing Foundation did not and neither did the cooperative housing movement *Working Class Utopias* is essential reading for anyone seeking to understand the housing problem that continues to plague New York and cities across the nation

Rupturing the Dialectic Harry Cleaver, 2017-04-17 A central figure for anti authoritarian Marxists and radicals who see the working class as an autonomous force capable of acting independently and not simply reacting to the depredations of capitalism Harry Cleaver brings this vision up to date interpreting capitalism's latest crises and demonstrating how ordinary people can and do rupture the smooth functioning of the system that exploits them

Work: The Labors of Language, Culture, and History in North America J. Jesse Ramírez, Sixta Quassdorf, 2021-11-08 Like all fundamental categories work becomes ever more complex as we examine it more closely The terms work labor job employment occupation profession vocation task toil effort pursuit and calling form a dense web of overlapping and contrasting meanings Moreover the analysis of work must contend with how histories of class struggle gendered and sexual divisions of labor racial hierarchies and citizenship regimes have determined who counts as a worker and qualifies for the rights protections and social respect thereof And yet waged work is only the tip of an enormous iceberg that feminist theorists call socially reproductive labor the gendered mostly unpaid and hidden work of caring for feeding nursing and teaching the next generation of workers This collection of essays explores the richness of work as a linguistic cultural and historical concept and the conjunctures that are changing work and its worlds

Unsettled History Leslie Witz, Gary Minkley, Ciraj Rassool, 2017-02-27 *Unsettled History* examines South African society

and the construction and presentation of its public pasts from Nelson Mandela's release from prison in 1990 to South Africa's hosting of the 2010 FIFA World Cup Conventionally represented as a time of rectifying the silences and distortions of settler history through inclusion and recovery the focus here instead is on the shifts in processes and locations of historicizing and the unsettled state of categories of framing history in post apartheid South Africa This era saw fundamental transformations in the order of knowledge from the academy to the public from popular history to public history from history as lesson to history as forum Leslie Witz Gary Minkley and Ciraj Rassool take the reader to sites of historical production in which complex ideas about pasts are invoked and navigate a path toward understanding the agencies of image making and memory production This volume is the outcome of the authors intensive collaborative research and engagement over twenty five years on questions including the production and performance of apartheid history the cultural politics of social history South Africa's Truth and Reconciliation Commission and practices of orality tourism as an arena of image making and historical construction museums as sites of heritage production for a new South Africa photographs archival meanings and the construction of the social documentary and the centenary commemorations of the South African War and the making of race The authors not only witnessed many of these instances of history making but were also participants in their constitution

Misogyny in American Culture Letizia Guglielmo Ph.D.,2018-10-01 This set surveys American misogyny in all its cultural forms from popular music film and education to healthcare politics and business The work also assesses proposals to confront and reduce such expressions of hatred The essays contained in this two volume set explore misogyny within various areas of American culture to demonstrate its pervasiveness and identify common foundations of its many presentations Beyond a basic definition of misogyny which includes hatred of women and girls and the ways in which this hatred and distrust influences action speech discrimination policy and culture in the United States this project also aims to expand and complicate definitions of misogyny in order to provide readers with a robust introduction to and understanding of the larger topic Given the current political and cultural climate and the more frequent and widespread use of the term misogyny by various media outlets and voters during the 2016 presidential election this book has the potential both to contribute to ongoing conversations on misogyny and among its intended audience of advanced high school beginning college students and the general public to inform a shift currently unfolding in public conversation on the topic **Withdrawal** Gregory A. Daddis,2017-09-01 In a riveting sequel to his celebrated *Westmoreland's War* Daddis offers a bold new interpretation of America's first lost war Upending myths of a better war that led to victory in Vietnam *Withdrawal* is required reading for anyone hoping to understand the final years of American intervention in Southeast Asia *Encounters Old and New in World History* Alan Karras,Laura J. Mitchell,2017-06-30 This collection of essays asserts the specific value of world history research and teaching showing how the field contributes to the larger historical profession and offering concrete suggestions to develop more interaction between the academy and the public The twelve contributors each with their own academic
